## Suggested Lesson Flow

### Warm-up

Display the concept image and ask learners to predict the rule behind **Understanding How to Express "Going Places" in English** before reading the explanation.

### Model

Walk through the Core Idea and the sections on Key Points, Summary. Pause after each part so students can restate the pattern in plain English.

### Guided practice

Project two or three examples from the concept sheet and ask pairs to explain why each choice works, not just what the answer is.

### Independent work

Assign the 24 practice items for quiet work, partner checking, and final feedback.

### Closure

Ask students to create one new sentence or mini-example of their own that follows the same pattern.

## Likely Learner Errors

- Learners may overgeneralize the first pattern they notice. Keep returning to **Key Points, Summary** and ask students to explain what changes from one example to the next.
- Long explanations can hide the signal word or structure. Have students underline the exact phrase that tells them which form, pattern, or response is needed.
- If students can choose an answer but cannot explain it, ask them to justify their choice using words taken directly from the concept sheet.

## Differentiation and Delivery Notes

- Support: teach one section at a time, then send students back to **the examples** or the practice set so they can apply the same rule immediately.
- Pair work: let students compare answers aloud before you reveal the key. The explanation step is as important as the final answer.
- Extension: ask stronger students to write two fresh examples or a short dialogue that uses the same target language accurately.

## Model Language from the Concept Sheet

- I want to go home.
- She needs to go there.
- They plan to go upstairs.
- We should go inside.
- He dreams of going overseas.
- She is excited to go abroad.
