

Human Resources English

Instructor guide for advanced ESL learners working in human resources

Audience: HR business partners, recruiters, talent managers, people managers, employee-relations staff, learning teams, compensation analysts, and HR-adjacent leaders

Focus: A human-resources English curriculum for hiring, onboarding, performance feedback, employee relations, investigations, benefits, compensation, policy explanation, workplace conflict, and dignity-preserving directness.

Designed for advanced ESL learners who already use professional English and need industry-specific terminology, realistic meetings, role-play pressure, careful pushback, and polished workplace outputs.

Teaching stance: this is language and workplace-communication training, not legal, medical, financial, safety, or regulatory advice. Instructors should connect every scenario to the learner's current company policies, local rules, and approved procedures.

Purpose and Course Logic

A human-resources English curriculum for hiring, onboarding, performance feedback, employee relations, investigations, benefits, compensation, policy explanation, workplace conflict, and dignity-preserving directness.

Core language challenge

Advanced learners do not only need vocabulary. They need the ability to ask which standard applies, who owns the decision, what evidence is sufficient, what risk is being accepted, and how to disagree without sounding vague, defensive, or reckless.

Each module trains a realistic workplace pressure point with role-specific terms, decision language, pushback practice, and bounded decision activities learners can apply to their own work.

Course objectives

- Use human resources terminology accurately in meetings, written updates, handoffs, escalations, reviews, and client or stakeholder conversations.
- Turn vague requests into specific questions about evidence, owner, deadline, constraint, risk, and decision rights.
- Push back on unsafe, unsupported, noncompliant, unrealistic, or poorly scoped proposals while preserving professional trust.
- Handle realistic dialogues from the field, including conflict, uncertainty, documentation gaps, customer or stakeholder pressure, and cross-functional disagreement.
- Select language that produces concise workplace outputs: briefing notes, escalation updates, meeting scripts, risk memos, decision records, and follow-up messages.

Instructor Module Plans

Module 1. Recruiting, Screening, and Candidate Experience (90 minutes)

Discuss hiring criteria and fairness without vague culture-fit language.

Learners should be able to

- Use these terms accurately: job requirement, structured interview, bias, candidate experience.
- Explain the workplace tension: Selection criteria, interview evidence, bias risk, and documentation need clarity.
- Respond professionally when a stakeholder says: Use the manager's intuition.
- Select the evidence, tradeoff, owner, and decision required for a candidate-debrief guide.

Customized scenario

Workplace pressure

A hiring manager rejects candidates for not feeling like a fit.

Use the manager's intuition.

Selection criteria, interview evidence, bias risk, and documentation need clarity.

Classroom sequence

1. Terminology selection: distinguish the term that names the decision variable from three plausible alternatives.
2. Risk triage: select the stakeholder, decision, evidence gap, operating constraint, and cost of being wrong from a bounded scenario set.
3. Pushback ladder: choose the strongest sequence from clarification to evidence-based objection to consequence to decision request.

4. Decision artifact check: select the facts, caveat, owner, and next action that belong in a candidate-debrief guide.

Module 2. Onboarding and Role Clarity (90 minutes)

Explain expectations, support, and early performance signals.

Learners should be able to

- Use these terms accurately: role clarity, onboarding, manager check-in, success measure.
- Explain the workplace tension: Role scope, manager check-ins, training, and success measures may be unclear.
- Respond professionally when a stakeholder says: Tell them to be more proactive.
- Select the evidence, tradeoff, owner, and decision required for a onboarding reset plan.

Customized scenario

Workplace pressure

A new employee is confused about ownership after two weeks.

Tell them to be more proactive.

Role scope, manager check-ins, training, and success measures may be unclear.

Classroom sequence

1. Terminology selection: distinguish the term that names the decision variable from three plausible alternatives.
2. Risk triage: select the stakeholder, decision, evidence gap, operating constraint, and cost of being wrong from a bounded scenario set.
3. Pushback ladder: choose the strongest sequence from clarification to evidence-based objection to consequence to decision request.
4. Decision artifact check: select the facts, caveat, owner, and next action that belong in a onboarding reset plan.

Module 3. Performance Feedback and Documentation (90 minutes)

Give direct feedback that is specific, fair, and useful.

Learners should be able to

- Use these terms accurately: performance gap, documentation, expectation, support plan.
- Explain the workplace tension: The employee may not have received clear expectations, examples, or support.
- Respond professionally when a stakeholder says: Issue the warning immediately.
- Select the evidence, tradeoff, owner, and decision required for a performance feedback script.

Customized scenario

Workplace pressure

A manager wants to put an employee on a warning after months of vague concerns.

Issue the warning immediately.

The employee may not have received clear expectations, examples, or support.

Classroom sequence

1. Terminology selection: distinguish the term that names the decision variable from three plausible alternatives.
2. Risk triage: select the stakeholder, decision, evidence gap, operating constraint, and cost of being wrong from a bounded scenario set.

3. Pushback ladder: choose the strongest sequence from clarification to evidence-based objection to consequence to decision request.
4. Decision artifact check: select the facts, caveat, owner, and next action that belong in a performance feedback script.

Module 4. Employee Relations and Investigations (90 minutes)

Handle complaints with neutrality, confidentiality, and procedural care.

Learners should be able to

- Use these terms accurately: employee relations, harassment, retaliation, confidentiality.
- Explain the workplace tension: Investigation process, anti-retaliation, evidence, and confidentiality are critical.
- Respond professionally when a stakeholder says: Resolve it quietly because the accused is important.
- Select the evidence, tradeoff, owner, and decision required for a investigation intake summary.

Customized scenario

Workplace pressure

An employee reports harassment by a high performer.

Resolve it quietly because the accused is important.

Investigation process, anti-retaliation, evidence, and confidentiality are critical.

Classroom sequence

1. Terminology selection: distinguish the term that names the decision variable from three plausible alternatives.
2. Risk triage: select the stakeholder, decision, evidence gap, operating constraint, and cost of being wrong from a bounded scenario set.
3. Pushback ladder: choose the strongest sequence from clarification to evidence-based objection to consequence to decision request.
4. Decision artifact check: select the facts, caveat, owner, and next action that belong in a investigation intake summary.

Module 5. Compensation, Benefits, and Equity (90 minutes)

Explain pay and benefits decisions without making unauthorized promises.

Learners should be able to

- Use these terms accurately: pay band, job level, equity review, benefits.
- Explain the workplace tension: Pay bands, job leveling, equity review, budget, and communication process matter.
- Respond professionally when a stakeholder says: Promise an immediate adjustment.
- Select the evidence, tradeoff, owner, and decision required for a compensation response.

Customized scenario

Workplace pressure

An employee says a peer is paid more for the same job.

Promise an immediate adjustment.

Pay bands, job leveling, equity review, budget, and communication process matter.

Classroom sequence

1. Terminology selection: distinguish the term that names the decision variable from three plausible alternatives.

2. Risk triage: select the stakeholder, decision, evidence gap, operating constraint, and cost of being wrong from a bounded scenario set.
3. Pushback ladder: choose the strongest sequence from clarification to evidence-based objection to consequence to decision request.
4. Decision artifact check: select the facts, caveat, owner, and next action that belong in a compensation response.

Module 6. Policy Communication and Compliance (90 minutes)

Explain policies in plain English while preserving flexibility where allowed.

Learners should be able to

- Use these terms accurately: policy, accommodation, precedent, compliance.
- Explain the workplace tension: Consistency, accommodation, legal risk, and manager precedent need review.
- Respond professionally when a stakeholder says: Approve it because the employee is valued.
- Select the evidence, tradeoff, owner, and decision required for a policy exception review.

Customized scenario

Workplace pressure

A manager wants to make an exception to leave policy.

Approve it because the employee is valued.

Consistency, accommodation, legal risk, and manager precedent need review.

Classroom sequence

1. Terminology selection: distinguish the term that names the decision variable from three plausible alternatives.
2. Risk triage: select the stakeholder, decision, evidence gap, operating constraint, and cost of being wrong from a bounded scenario set.
3. Pushback ladder: choose the strongest sequence from clarification to evidence-based objection to consequence to decision request.
4. Decision artifact check: select the facts, caveat, owner, and next action that belong in a policy exception review.

Module 7. Conflict Mediation and Manager Coaching (90 minutes)

Coach managers to address conflict early and respectfully.

Learners should be able to

- Use these terms accurately: mediation, behavioral example, operating agreement, accountability.
- Explain the workplace tension: Shared expectations, facts, behavior, and operating agreements should be tested first.
- Respond professionally when a stakeholder says: Move one of them to another team.
- Select the evidence, tradeoff, owner, and decision required for a mediation opening script.

Customized scenario

Workplace pressure

Two team leads accuse each other of blocking work.

Move one of them to another team.

Shared expectations, facts, behavior, and operating agreements should be tested first.

Classroom sequence

1. Terminology selection: distinguish the term that names the decision variable from three plausible alternatives.
2. Risk triage: select the stakeholder, decision, evidence gap, operating constraint, and cost of being wrong from a bounded scenario set.
3. Pushback ladder: choose the strongest sequence from clarification to evidence-based objection to consequence to decision request.
4. Decision artifact check: select the facts, caveat, owner, and next action that belong in a mediation opening script.

Module 8. Restructuring and Sensitive Communication (90 minutes)

Use careful language for layoffs, reorganizations, and role changes.

Learners should be able to

- Use these terms accurately: restructuring, position elimination, severance, talking points.
- Explain the workplace tension: Timing, confidentiality, legal review, messaging, and dignity are essential.
- Respond professionally when a stakeholder says: Give employees informal warnings.
- Select the evidence, tradeoff, owner, and decision required for a reorg communication checklist.

Customized scenario

Workplace pressure

Leadership plans a reorg but wants managers to hint at it early.

Give employees informal warnings.

Timing, confidentiality, legal review, messaging, and dignity are essential.

Classroom sequence

1. Terminology selection: distinguish the term that names the decision variable from three plausible alternatives.
2. Risk triage: select the stakeholder, decision, evidence gap, operating constraint, and cost of being wrong from a bounded scenario set.
3. Pushback ladder: choose the strongest sequence from clarification to evidence-based objection to consequence to decision request.
4. Decision artifact check: select the facts, caveat, owner, and next action that belong in a reorg communication checklist.

Nomenclature and Jargon

These are classroom working definitions. Learners should adapt wording to their organization's policies, systems, and local regulatory environment.

Recruiting, Screening, and Candidate Experience

Term	Working meaning	Collocations	Contrast and workplace line
job requirement	In human resources, job requirement is an approved rule or decision framework that sets what is permitted, required, or acceptable. Use it when teams need to discuss hiring criteria and fairness without vague culture-fit language.	apply the job requirement; comply with the job requirement	Contrast: job requirement is an approved rule or threshold, not an informal preference. Example: Please confirm which job requirement applies before we commit the team.

Term	Working meaning	Collocations	Contrast and workplace line
structured interview	In human resources, structured interview is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to discuss hiring criteria and fairness without vague culture-fit language.	clarify structured interview; document structured interview	Contrast: structured interview should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify structured interview and the evidence that supports it.
bias	In human resources, bias is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to discuss hiring criteria and fairness without vague culture-fit language.	clarify bias; document bias	Contrast: bias should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify bias and the evidence that supports it.
candidate experience	In human resources, candidate experience is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to discuss hiring criteria and fairness without vague culture-fit language.	clarify candidate experience; document candidate experience	Contrast: candidate experience should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify candidate experience and the evidence that supports it.

Onboarding and Role Clarity

Term	Working meaning	Collocations	Contrast and workplace line
role clarity	In human resources, role clarity is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to explain expectations, support, and early performance signals.	clarify role clarity; document role clarity	Contrast: role clarity should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify role clarity and the evidence that supports it.
onboarding	In human resources, onboarding is a capability or authorization process used to prepare, verify, or document that a person can perform a role. Use it when teams need to explain expectations, support, and early performance signals.	clarify onboarding; document onboarding	Contrast: onboarding should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify onboarding and the evidence that supports it.
manager check-in	In human resources, manager check-in is a repeatable control mechanism used to prevent, detect, or confirm conditions before work proceeds. Use it when teams need to explain expectations, support, and early performance signals.	clarify manager check-in; document manager check-in	Contrast: manager check-in should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify manager check-in and the evidence that supports it.
success measure	In human resources, success measure is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to explain expectations, support, and early performance signals.	clarify success measure; document success measure	Contrast: success measure should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify success measure and the evidence that supports it.

Performance Feedback and Documentation

Term	Working meaning	Collocations	Contrast and workplace line
performance gap	In human resources, performance gap is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to give direct feedback that is specific, fair, and useful.	clarify performance gap; document performance gap	Contrast: performance gap should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify performance gap and the evidence that supports it.
documentation	Written evidence of what was done, why, by whom, when, and under which authority.	clarify documentation; document documentation	Contrast: documentation should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify documentation and the evidence that supports it.
expectation	In human resources, expectation is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to give direct feedback that is specific, fair, and useful.	clarify expectation; document expectation	Contrast: expectation should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify expectation and the evidence that supports it.
support plan	In human resources, support plan is a structured course of action that assigns priorities, sequencing, assumptions, and responsible roles. Use it when teams need to give direct feedback that is specific, fair, and useful.	align on the support plan; revise the support plan	Contrast: support plan sets an intended course of action; it is not proof that the work is feasible or approved. Example: Before we revise the support plan, we need to test the dependency and resource assumptions.

Employee Relations and Investigations

Term	Working meaning	Collocations	Contrast and workplace line
employee relations	In human resources, employee relations is a stakeholder category whose needs, eligibility, experience, or obligations affect the decision. Use it when teams need to handle complaints with neutrality, confidentiality, and procedural care.	clarify employee relations; document employee relations	Contrast: employee relations should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify employee relations and the evidence that supports it.
harassment	In human resources, harassment is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to handle complaints with neutrality, confidentiality, and procedural care.	clarify harassment; document harassment	Contrast: harassment should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify harassment and the evidence that supports it.
retaliation	In human resources, retaliation is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to handle complaints with neutrality, confidentiality, and procedural care.	clarify retaliation; document retaliation	Contrast: retaliation should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify retaliation and the evidence that supports it.
confidentiality	In human resources, confidentiality is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to handle complaints with neutrality, confidentiality, and procedural care.	clarify confidentiality; document confidentiality	Contrast: confidentiality should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify confidentiality and the evidence that supports it.

Compensation, Benefits, and Equity

Term	Working meaning	Collocations	Contrast and workplace line
pay band	In human resources, pay band is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to explain pay and benefits decisions without making unauthorized promises.	clarify pay band; document pay band	Contrast: pay band should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify pay band and the evidence that supports it.
job level	In human resources, job level is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to explain pay and benefits decisions without making unauthorized promises.	clarify job level; document job level	Contrast: job level should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify job level and the evidence that supports it.
equity review	In human resources, equity review is a structured examination of evidence, process, or results used to reach a defensible conclusion. Use it when teams need to explain pay and benefits decisions without making unauthorized promises.	conduct a equity review; document the equity review	Contrast: equity review is a structured examination of evidence; it is not a conclusion reached before the evidence is checked. Example: The team will conduct a equity review before it recommends a corrective action.
benefits	In human resources, benefits is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to explain pay and benefits decisions without making unauthorized promises.	clarify benefits; document benefits	Contrast: benefits should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify benefits and the evidence that supports it.

Policy Communication and Compliance

Term	Working meaning	Collocations	Contrast and workplace line
policy	Formal rule or standard that guides decisions and behavior.	apply the policy; comply with the policy	Contrast: policy is an approved rule or threshold, not an informal preference. Example: Please confirm which policy applies before we commit the team.
accommodation	In human resources, accommodation is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to explain policies in plain English while preserving flexibility where allowed.	clarify accommodation; document accommodation	Contrast: accommodation should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify accommodation and the evidence that supports it.
precedent	In human resources, precedent is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to explain policies in plain English while preserving flexibility where allowed.	clarify precedent; document precedent	Contrast: precedent should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify precedent and the evidence that supports it.
compliance	Conformance with laws, regulations, standards, policies, contracts, or approved procedures.	clarify compliance; document compliance	Contrast: compliance should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify compliance and the evidence that supports it.

Conflict Mediation and Manager Coaching

Term	Working meaning	Collocations	Contrast and workplace line
mediation	In human resources, mediation is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to coach managers to address conflict early and respectfully.	clarify mediation; document mediation	Contrast: mediation should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify mediation and the evidence that supports it.
behavioral example	In human resources, behavioral example is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to coach managers to address conflict early and respectfully.	clarify behavioral example; document behavioral example	Contrast: behavioral example should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify behavioral example and the evidence that supports it.
operating agreement	In human resources, operating agreement is a negotiated legal or commercial arrangement that allocates rights, obligations, remedies, or risk. Use it when teams need to coach managers to address conflict early and respectfully.	clarify operating agreement; document operating agreement	Contrast: operating agreement should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify operating agreement and the evidence that supports it.
accountability	In human resources, accountability is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to coach managers to address conflict early and respectfully.	clarify accountability; document accountability	Contrast: accountability should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify accountability and the evidence that supports it.

Restructuring and Sensitive Communication

Term	Working meaning	Collocations	Contrast and workplace line
restructuring	In human resources, restructuring is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to use careful language for layoffs, reorganizations, and role changes.	clarify restructuring; document restructuring	Contrast: restructuring should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify restructuring and the evidence that supports it.
position elimination	In human resources, position elimination is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to use careful language for layoffs, reorganizations, and role changes.	clarify position elimination; document position elimination	Contrast: position elimination should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify position elimination and the evidence that supports it.
severance	In human resources, severance is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to use careful language for layoffs, reorganizations, and role changes.	clarify severance; document severance	Contrast: severance should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify severance and the evidence that supports it.
talking points	In human resources, talking points is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to use careful language for layoffs, reorganizations, and role changes.	clarify talking points; document talking points	Contrast: talking points should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify talking points and the evidence that supports it.

Industry-Specific Meeting Moves

Situation	Useful language
Recruiting, Screening, and Candidate Experience	Before we commit, I want to confirm job requirement, structured interview, the owner, and the evidence behind the decision. If selection criteria, interview evidence, bias risk, and documentation need clarity., I recommend we document the risk and agree on the next step.
Onboarding and Role Clarity	Before we commit, I want to confirm role clarity, onboarding, the owner, and the evidence behind the decision. If role scope, manager check-ins, training, and success measures may be unclear., I recommend we document the risk and agree on the next step.
Performance Feedback and Documentation	Before we commit, I want to confirm performance gap, documentation, the owner, and the evidence behind the decision. If the employee may not have received clear expectations, examples, or support., I recommend we document the risk and agree on the next step.
Employee Relations and Investigations	Before we commit, I want to confirm employee relations, harassment, the owner, and the evidence behind the decision. If investigation process, anti-retaliation, evidence, and confidentiality are critical., I recommend we document the risk and agree on the next step.
Compensation, Benefits, and Equity	Before we commit, I want to confirm pay band, job level, the owner, and the evidence behind the decision. If pay bands, job leveling, equity review, budget, and communication process matter., I recommend we document the risk and agree on the next step.
Policy Communication and Compliance	Before we commit, I want to confirm policy, accommodation, the owner, and the evidence behind the decision. If consistency, accommodation, legal risk, and manager precedent need review., I recommend we document the risk and agree on the next step.
Conflict Mediation and Manager Coaching	Before we commit, I want to confirm mediation, behavioral example, the owner, and the evidence behind the decision. If shared expectations, facts, behavior, and operating agreements should be tested first., I recommend we document the risk and agree on the next step.
Restructuring and Sensitive Communication	Before we commit, I want to confirm restructuring, position elimination, the owner, and the evidence behind the decision. If timing, confidentiality, legal review, messaging, and dignity are essential., I recommend we document the risk and agree on the next step.

High-pressure pushback frames

- I understand the urgency. The risk is that we move faster than the evidence or process supports.
- I am not blocking the goal. I am naming the condition we need before the decision is safe and credible.
- If we accept this risk, we should name the owner, document the assumption, and define the trigger for escalation.
- That may be possible, but not under the current scope, timeline, or approval path.
- Let's separate what we know, what we assume, and what still needs confirmation.

Assessment and Coaching

Performance rubric

Skill	Developing	Proficient	Strong
Terminology	Recognizes terms but uses them loosely.	Uses field terms accurately in context.	Defines terms, connects them to evidence, and explains decision impact.
Pushback	Disagrees vaguely or avoids disagreement.	Names concern with evidence and next step.	Balances urgency, relationship, risk, owner, and decision rights.
Scenario judgment	Focuses on one stakeholder's preference.	Identifies constraint, risk, and process.	Guides the group toward a documented, realistic decision.
Decision communication	Selects language without linking it to the decision.	Chooses language that names facts, owner, and next step.	Distinguishes evidence, tradeoff, authority, and escalation in a decision-ready response.

Source orientation

- Company employee handbook and HR policies.
- Current employment-law guidance from counsel.
- EEOC and local workplace-rights resources where applicable.
- The learner's own company policies, SOPs, contracts, systems, templates, and approved communication standards.
