

Media and Entertainment English

Instructor guide for advanced ESL learners working in media and entertainment

Audience: producers, production managers, creative executives, rights coordinators, distribution teams, talent managers, marketing staff, and media operations professionals

Focus: A media and entertainment English curriculum for creative development, production planning, rights, talent, distribution, audience metrics, sponsorship, brand safety, and high-pressure creative disagreement.

Designed for advanced ESL learners who already use professional English and need industry-specific terminology, realistic meetings, role-play pressure, careful pushback, and polished workplace outputs.

Teaching stance: this is language and workplace-communication training, not legal, medical, financial, safety, or regulatory advice. Instructors should connect every scenario to the learner's current company policies, local rules, and approved procedures.

Purpose and Course Logic

A media and entertainment English curriculum for creative development, production planning, rights, talent, distribution, audience metrics, sponsorship, brand safety, and high-pressure creative disagreement.

Core language challenge

Advanced learners do not only need vocabulary. They need the ability to ask which standard applies, who owns the decision, what evidence is sufficient, what risk is being accepted, and how to disagree without sounding vague, defensive, or reckless.

Each module trains a realistic workplace pressure point with role-specific terms, decision language, pushback practice, and bounded decision activities learners can apply to their own work.

Course objectives

- Use media and entertainment terminology accurately in meetings, written updates, handoffs, escalations, reviews, and client or stakeholder conversations.
- Turn vague requests into specific questions about evidence, owner, deadline, constraint, risk, and decision rights.
- Push back on unsafe, unsupported, noncompliant, unrealistic, or poorly scoped proposals while preserving professional trust.
- Handle realistic dialogues from the field, including conflict, uncertainty, documentation gaps, customer or stakeholder pressure, and cross-functional disagreement.
- Select language that produces concise workplace outputs: briefing notes, escalation updates, meeting scripts, risk memos, decision records, and follow-up messages.

Instructor Module Plans

Module 1. Creative Briefs and Development Notes (90 minutes)

Give creative feedback that is specific and usable.

Learners should be able to

- Use these terms accurately: creative brief, tone, brand fit, deliverable.
- Explain the workplace tension: Audience, tone, brand fit, budget, and deliverables need concrete direction.
- Respond professionally when a stakeholder says: Tell the creative team to make it better.
- Select the evidence, tradeoff, owner, and decision required for a creative feedback note.

Customized scenario

Workplace pressure

A client says a concept does not feel premium.

Tell the creative team to make it better.

Audience, tone, brand fit, budget, and deliverables need concrete direction.

Classroom sequence

1. Terminology selection: distinguish the term that names the decision variable from three plausible alternatives.
2. Risk triage: select the stakeholder, decision, evidence gap, operating constraint, and cost of being wrong from a bounded scenario set.
3. Pushback ladder: choose the strongest sequence from clarification to evidence-based objection to consequence to decision request.

4. Decision artifact check: select the facts, caveat, owner, and next action that belong in a creative feedback note.

Module 2. Production Planning and Budget (90 minutes)

Discuss creative ambition against schedule and cost.

Learners should be able to

- Use these terms accurately: production budget, call sheet, location, permit.
- Explain the workplace tension: Budget, crew, location, safety, permits, and post-production impact need review.
- Respond professionally when a stakeholder says: Approve it to protect the creative vision.
- Select the evidence, tradeoff, owner, and decision required for a production impact memo.

Customized scenario

Workplace pressure

A director adds a complex scene late in pre-production.

Approve it to protect the creative vision.

Budget, crew, location, safety, permits, and post-production impact need review.

Classroom sequence

1. Terminology selection: distinguish the term that names the decision variable from three plausible alternatives.
2. Risk triage: select the stakeholder, decision, evidence gap, operating constraint, and cost of being wrong from a bounded scenario set.
3. Pushback ladder: choose the strongest sequence from clarification to evidence-based objection to consequence to decision request.
4. Decision artifact check: select the facts, caveat, owner, and next action that belong in a production impact memo.

Module 3. Rights, Clearances, and Licensing (90 minutes)

Set boundaries around music, footage, images, and likeness.

Learners should be able to

- Use these terms accurately: rights, clearance, license, territory.
- Explain the workplace tension: Clearance, territory, duration, platform, and budget must be confirmed.
- Respond professionally when a stakeholder says: Keep it because it improves the scene.
- Select the evidence, tradeoff, owner, and decision required for a clearance risk response.

Customized scenario

Workplace pressure

An editor uses a popular song in a rough cut.

Keep it because it improves the scene.

Clearance, territory, duration, platform, and budget must be confirmed.

Classroom sequence

1. Terminology selection: distinguish the term that names the decision variable from three plausible alternatives.
2. Risk triage: select the stakeholder, decision, evidence gap, operating constraint, and cost of being wrong from a bounded scenario set.

3. Pushback ladder: choose the strongest sequence from clarification to evidence-based objection to consequence to decision request.
4. Decision artifact check: select the facts, caveat, owner, and next action that belong in a clearance risk response.

Module 4. Talent, Contracts, and Approvals (90 minutes)

Communicate approval rights and contractual limits.

Learners should be able to

- Use these terms accurately: talent agreement, approval right, likeness, release.
- Explain the workplace tension: Contract terms, approval rights, likeness use, and release timing matter.
- Respond professionally when a stakeholder says: Ignore the objection because the spot is finished.
- Select the evidence, tradeoff, owner, and decision required for a talent approval update.

Customized scenario

Workplace pressure

A talent representative objects to a promotional edit.

Ignore the objection because the spot is finished.

Contract terms, approval rights, likeness use, and release timing matter.

Classroom sequence

1. Terminology selection: distinguish the term that names the decision variable from three plausible alternatives.
2. Risk triage: select the stakeholder, decision, evidence gap, operating constraint, and cost of being wrong from a bounded scenario set.
3. Pushback ladder: choose the strongest sequence from clarification to evidence-based objection to consequence to decision request.
4. Decision artifact check: select the facts, caveat, owner, and next action that belong in a talent approval update.

Module 5. Distribution and Windowing (90 minutes)

Explain release strategy and platform constraints.

Learners should be able to

- Use these terms accurately: windowing, exclusivity, platform, rights window.
- Explain the workplace tension: Windowing, exclusivity, rights, platform economics, and audience strategy need review.
- Respond professionally when a stakeholder says: Agree if it increases reach.
- Select the evidence, tradeoff, owner, and decision required for a distribution strategy note.

Customized scenario

Workplace pressure

A partner wants simultaneous release across all channels.

Agree if it increases reach.

Windowing, exclusivity, rights, platform economics, and audience strategy need review.

Classroom sequence

1. Terminology selection: distinguish the term that names the decision variable from three plausible alternatives.

2. Risk triage: select the stakeholder, decision, evidence gap, operating constraint, and cost of being wrong from a bounded scenario set.
3. Pushback ladder: choose the strongest sequence from clarification to evidence-based objection to consequence to decision request.
4. Decision artifact check: select the facts, caveat, owner, and next action that belong in a distribution strategy note.

Module 6. Audience Metrics and Performance (90 minutes)

Interpret viewership without overclaiming success.

Learners should be able to

- Use these terms accurately: reach, completion rate, retention, audience segment.
- Explain the workplace tension: Reach, completion, retention, demographic fit, and benchmark matter.
- Respond professionally when a stakeholder says: Call it a hit.
- Select the evidence, tradeoff, owner, and decision required for a audience performance readout.

Customized scenario

Workplace pressure

A pilot has strong social buzz but weak completion.

Call it a hit.

Reach, completion, retention, demographic fit, and benchmark matter.

Classroom sequence

1. Terminology selection: distinguish the term that names the decision variable from three plausible alternatives.
2. Risk triage: select the stakeholder, decision, evidence gap, operating constraint, and cost of being wrong from a bounded scenario set.
3. Pushback ladder: choose the strongest sequence from clarification to evidence-based objection to consequence to decision request.
4. Decision artifact check: select the facts, caveat, owner, and next action that belong in a audience performance readout.

Module 7. Sponsorship, Brand Safety, and Integration (90 minutes)

Balance sponsor needs with audience trust.

Learners should be able to

- Use these terms accurately: brand safety, product placement, deliverable, makegood.
- Explain the workplace tension: Editorial integrity, brand safety, contractual deliverables, and audience reaction matter.
- Respond professionally when a stakeholder says: Add more shots in the final cut.
- Select the evidence, tradeoff, owner, and decision required for a sponsorship integration response.

Customized scenario

Workplace pressure

A sponsor wants more visible product placement.

Add more shots in the final cut.

Editorial integrity, brand safety, contractual deliverables, and audience reaction matter.

Classroom sequence

1. Terminology selection: distinguish the term that names the decision variable from three plausible alternatives.
2. Risk triage: select the stakeholder, decision, evidence gap, operating constraint, and cost of being wrong from a bounded scenario set.
3. Pushback ladder: choose the strongest sequence from clarification to evidence-based objection to consequence to decision request.
4. Decision artifact check: select the facts, caveat, owner, and next action that belong in a sponsorship integration response.

Module 8. Crisis Response and Public Statements (90 minutes)

Respond to controversy without premature admissions.

Learners should be able to

- Use these terms accurately: public statement, backlash, legal review, holding statement.
- Explain the workplace tension: Facts, legal review, stakeholder impact, tone, and timing need coordination.
- Respond professionally when a stakeholder says: Post an apology immediately.
- Select the evidence, tradeoff, owner, and decision required for a crisis holding statement.

Customized scenario

Workplace pressure

A clip is criticized online before the full context is known.

Post an apology immediately.

Facts, legal review, stakeholder impact, tone, and timing need coordination.

Classroom sequence

1. Terminology selection: distinguish the term that names the decision variable from three plausible alternatives.
2. Risk triage: select the stakeholder, decision, evidence gap, operating constraint, and cost of being wrong from a bounded scenario set.
3. Pushback ladder: choose the strongest sequence from clarification to evidence-based objection to consequence to decision request.
4. Decision artifact check: select the facts, caveat, owner, and next action that belong in a crisis holding statement.

Nomenclature and Jargon

These are classroom working definitions. Learners should adapt wording to their organization's policies, systems, and local regulatory environment.

Creative Briefs and Development Notes

Term	Working meaning	Collocations	Contrast and workplace line
creative brief	In media and entertainment, creative brief is a workplace communication artifact that records facts, interpretation, and the decision or action requested. Use it when teams need to give creative feedback that is specific and usable.	prepare a creative brief; circulate the creative brief	Contrast: creative brief is a reviewable communication artifact, not an undocumented verbal assurance. Example: The creative brief should state the evidence, caveat, decision owner, and next action.

Term	Working meaning	Collocations	Contrast and workplace line
tone	In media and entertainment, tone is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to give creative feedback that is specific and usable.	clarify tone; document tone	Contrast: tone should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify tone and the evidence that supports it.
brand fit	In media and entertainment, brand fit is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to give creative feedback that is specific and usable.	clarify brand fit; document brand fit	Contrast: brand fit should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify brand fit and the evidence that supports it.
deliverable	In media and entertainment, deliverable is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to give creative feedback that is specific and usable.	clarify deliverable; document deliverable	Contrast: deliverable should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify deliverable and the evidence that supports it.

Production Planning and Budget

Term	Working meaning	Collocations	Contrast and workplace line
production budget	In media and entertainment, production budget is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to discuss creative ambition against schedule and cost.	clarify production budget; document production budget	Contrast: production budget should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify production budget and the evidence that supports it.
call sheet	In media and entertainment, call sheet is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to discuss creative ambition against schedule and cost.	clarify call sheet; document call sheet	Contrast: call sheet should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify call sheet and the evidence that supports it.
location	In media and entertainment, location is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to discuss creative ambition against schedule and cost.	clarify location; document location	Contrast: location should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify location and the evidence that supports it.
permit	In media and entertainment, permit is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to discuss creative ambition against schedule and cost.	clarify permit; document permit	Contrast: permit should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify permit and the evidence that supports it.

Rights, Clearances, and Licensing

Term	Working meaning	Collocations	Contrast and workplace line
rights	In media and entertainment, rights is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to set boundaries around music, footage, images, and likeness.	clarify rights; document rights	Contrast: rights should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify rights and the evidence that supports it.

Term	Working meaning	Collocations	Contrast and workplace line
clearance	In media and entertainment, clearance is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to set boundaries around music, footage, images, and likeness.	clarify clearance; document clearance	Contrast: clearance should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify clearance and the evidence that supports it.
license	In media and entertainment, license is a negotiated legal or commercial arrangement that allocates rights, obligations, remedies, or risk. Use it when teams need to set boundaries around music, footage, images, and likeness.	clarify license; document license	Contrast: license should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify license and the evidence that supports it.
territory	In media and entertainment, territory is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to set boundaries around music, footage, images, and likeness.	clarify territory; document territory	Contrast: territory should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify territory and the evidence that supports it.

Talent, Contracts, and Approvals

Term	Working meaning	Collocations	Contrast and workplace line
talent agreement	In media and entertainment, talent agreement is a negotiated legal or commercial arrangement that allocates rights, obligations, remedies, or risk. Use it when teams need to communicate approval rights and contractual limits.	clarify talent agreement; document talent agreement	Contrast: talent agreement should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify talent agreement and the evidence that supports it.
approval right	In media and entertainment, approval right is a decision-accountability mechanism that clarifies who recommends, approves, performs, and accepts risk. Use it when teams need to communicate approval rights and contractual limits.	clarify approval right; document approval right	Contrast: approval right should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify approval right and the evidence that supports it.
likeness	In media and entertainment, likeness is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to communicate approval rights and contractual limits.	clarify likeness; document likeness	Contrast: likeness should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify likeness and the evidence that supports it.
release	In media and entertainment, release is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to communicate approval rights and contractual limits.	clarify release; document release	Contrast: release should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify release and the evidence that supports it.

Distribution and Windowing

Term	Working meaning	Collocations	Contrast and workplace line
windowing	In media and entertainment, windowing is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to explain release strategy and platform constraints.	clarify windowing; document windowing	Contrast: windowing should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify windowing and the evidence that supports it.
exclusivity	In media and entertainment, exclusivity is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to explain release strategy and platform constraints.	clarify exclusivity; document exclusivity	Contrast: exclusivity should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify exclusivity and the evidence that supports it.
platform	In media and entertainment, platform is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to explain release strategy and platform constraints.	clarify platform; document platform	Contrast: platform should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify platform and the evidence that supports it.
rights window	In media and entertainment, rights window is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to explain release strategy and platform constraints.	clarify rights window; document rights window	Contrast: rights window should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify rights window and the evidence that supports it.

Audience Metrics and Performance

Term	Working meaning	Collocations	Contrast and workplace line
reach	In media and entertainment, reach is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to interpret viewership without overclaiming success.	clarify reach; document reach	Contrast: reach should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify reach and the evidence that supports it.
completion rate	In media and entertainment, completion rate is a measurable indicator used to quantify performance, exposure, capacity, quality, or change over time. Use it when teams need to interpret viewership without overclaiming success.	track completion rate; explain a change in completion rate	Contrast: completion rate measures a result or condition; it does not, by itself, prove the cause. Example: Before we act, let us track completion rate by segment and explain what changed.
retention	In media and entertainment, retention is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to interpret viewership without overclaiming success.	clarify retention; document retention	Contrast: retention should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify retention and the evidence that supports it.
audience segment	In media and entertainment, audience segment is a communication or market-facing element that must match evidence, audience, channel, and approval boundaries. Use it when teams need to interpret viewership without overclaiming success.	clarify audience segment; document audience segment	Contrast: audience segment should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify audience segment and the evidence that supports it.

Sponsorship, Brand Safety, and Integration

Term	Working meaning	Collocations	Contrast and workplace line
brand safety	In media and entertainment, brand safety is a performance or governance dimension that must be protected through defined evidence, thresholds, and accountability. Use it when teams need to balance sponsor needs with audience trust.	clarify brand safety; document brand safety	Contrast: brand safety should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify brand safety and the evidence that supports it.
product placement	In media and entertainment, product placement is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to balance sponsor needs with audience trust.	clarify product placement; document product placement	Contrast: product placement should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify product placement and the evidence that supports it.
deliverable	In media and entertainment, deliverable is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to balance sponsor needs with audience trust.	clarify deliverable; document deliverable	Contrast: deliverable should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify deliverable and the evidence that supports it.
makegood	In media and entertainment, makegood is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to balance sponsor needs with audience trust.	clarify makegood; document makegood	Contrast: makegood should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify makegood and the evidence that supports it.

Crisis Response and Public Statements

Term	Working meaning	Collocations	Contrast and workplace line
public statement	In media and entertainment, public statement is a workplace communication artifact that records facts, interpretation, and the decision or action requested. Use it when teams need to respond to controversy without premature admissions.	prepare a public statement; circulate the public statement	Contrast: public statement is a reviewable communication artifact, not an undocumented verbal assurance. Example: The public statement should state the evidence, caveat, decision owner, and next action.
backlash	In media and entertainment, backlash is a field-specific concept used to locate the relevant fact, boundary, or decision variable. Use it when teams need to respond to controversy without premature admissions.	clarify backlash; document backlash	Contrast: backlash should be defined against the relevant evidence and decision boundary, rather than used as a vague label. Example: Before we proceed, please clarify backlash and the evidence that supports it.
legal review	In media and entertainment, legal review is a structured examination of evidence, process, or results used to reach a defensible conclusion. Use it when teams need to respond to controversy without premature admissions.	conduct a legal review; document the legal review	Contrast: legal review is a structured examination of evidence; it is not a conclusion reached before the evidence is checked. Example: The team will conduct a legal review before it recommends a corrective action.
holding statement	In media and entertainment, holding statement is a workplace communication artifact that records facts, interpretation, and the decision or action requested. Use it when teams need to respond to controversy without premature admissions.	prepare a holding statement; circulate the holding statement	Contrast: holding statement is a reviewable communication artifact, not an undocumented verbal assurance. Example: The holding statement should state the evidence, caveat, decision owner, and next action.

Industry-Specific Meeting Moves

Situation	Useful language
Creative Briefs and Development Notes	Before we commit, I want to confirm creative brief, tone, the owner, and the evidence behind the decision. If audience, tone, brand fit, budget, and deliverables need concrete direction., I recommend we document the risk and agree on the next step.
Production Planning and Budget	Before we commit, I want to confirm production budget, call sheet, the owner, and the evidence behind the decision. If budget, crew, location, safety, permits, and post-production impact need review., I recommend we document the risk and agree on the next step.
Rights, Clearances, and Licensing	Before we commit, I want to confirm rights, clearance, the owner, and the evidence behind the decision. If clearance, territory, duration, platform, and budget must be confirmed., I recommend we document the risk and agree on the next step.
Talent, Contracts, and Approvals	Before we commit, I want to confirm talent agreement, approval right, the owner, and the evidence behind the decision. If contract terms, approval rights, likeness use, and release timing matter., I recommend we document the risk and agree on the next step.
Distribution and Windowing	Before we commit, I want to confirm windowing, exclusivity, the owner, and the evidence behind the decision. If windowing, exclusivity, rights, platform economics, and audience strategy need review., I recommend we document the risk and agree on the next step.
Audience Metrics and Performance	Before we commit, I want to confirm reach, completion rate, the owner, and the evidence behind the decision. If reach, completion, retention, demographic fit, and benchmark matter., I recommend we document the risk and agree on the next step.
Sponsorship, Brand Safety, and Integration	Before we commit, I want to confirm brand safety, product placement, the owner, and the evidence behind the decision. If editorial integrity, brand safety, contractual deliverables, and audience reaction matter., I recommend we document the risk and agree on the next step.
Crisis Response and Public Statements	Before we commit, I want to confirm public statement, backlash, the owner, and the evidence behind the decision. If facts, legal review, stakeholder impact, tone, and timing need coordination., I recommend we document the risk and agree on the next step.

High-pressure pushback frames

- I understand the urgency. The risk is that we move faster than the evidence or process supports.
- I am not blocking the goal. I am naming the condition we need before the decision is safe and credible.
- If we accept this risk, we should name the owner, document the assumption, and define the trigger for escalation.
- That may be possible, but not under the current scope, timeline, or approval path.
- Let's separate what we know, what we assume, and what still needs confirmation.

Assessment and Coaching

Performance rubric

Skill	Developing	Proficient	Strong
Terminology	Recognizes terms but uses them loosely.	Uses field terms accurately in context.	Defines terms, connects them to evidence, and explains decision impact.
Pushback	Disagrees vaguely or avoids disagreement.	Names concern with evidence and next step.	Balances urgency, relationship, risk, owner, and decision rights.
Scenario judgment	Focuses on one stakeholder's preference.	Identifies constraint, risk, and process.	Guides the group toward a documented, realistic decision.

Skill	Developing	Proficient	Strong
Decision communication	Selects language without linking it to the decision.	Chooses language that names facts, owner, and next step.	Distinguishes evidence, tradeoff, authority, and escalation in a decision-ready response.

Source orientation

- Contracts, rights documents, and clearance records.
- Platform and distribution agreements.
- Brand safety, communications, and legal review procedures.
- The learner's own company policies, SOPs, contracts, systems, templates, and approved communication standards.
