At a Glance

Lesson focus Measurements & Shapes	Suggested timing 45-60 minutes
Core objective Students explain the target pattern clearly and apply it accurately in controlled practice and discussion.	Materials Student PDF, the concept image, board space, and time for partner checking.

Suggested Lesson Flow

Warm-up	Display the concept image and ask learners to predict the rule behind Measurements & Shapes before reading the explanation.
Model	Walk through the Core Idea and the sections on Key Points, Practical Examples in Context, Key Points to Remember. Pause after each part so students can restate the pattern in plain English.
Guided practice	Project two or three examples from the concept sheet and ask pairs to explain why each choice works, not just what the answer is.
Independent work	Assign the 24 practice items for quiet work, partner checking, and final feedback.
Closure	Ask students to create one new sentence or mini-example of their own that follows the same pattern.

Likely Learner Errors

- Learners may overgeneralize the first pattern they notice. Keep returning to **Key Points, Practical Examples in Context, Key Points to Remember** and ask students to explain what changes from one example to the next.
- Long explanations can hide the signal word or structure. Have students underline the exact phrase that tells them which form, pattern, or response is needed.
- If students can choose an answer but cannot explain it, ask them to justify their choice using words taken directly from the concept sheet.

Differentiation and Delivery Notes

- Support: teach one section at a time, then send students back to **the examples** or the practice set so they can apply the same rule immediately.
- Pair work: let students compare answers aloud before you reveal the key. The explanation step is as important as the final answer.
- Extension: ask stronger students to write two fresh examples or a short dialogue that uses the same target language accurately.

Model Language from the Concept Sheet

- Noun: It is a circle.
- Adjective: It is circular.
- The children sat in a circle.
- The garden has a circular layout.
- Noun: It is a square.
- Adjective: It is square.

Answer Key

Use this key for whole-class feedback or fast marking.

ITEM 01

The garden has a circular layout.

ITEM 02

She cut the sandwich into a triangle.

ITEM 03

The table is shaped like a rectangle.

ITEM 04

The children sat in a circle.

ITEM 05

The box is large.

ITEM 06

The road is wide.

ITEM 07

The pool is ten feet deep.

ITEM 08

The building is high.

ITEM 09

The package is heavy.

ITEM 10

The tree is old.

ITEM 11

The soup is hot.

ITEM 12

The car is fast.

ITEM 13

The towns are far apart.

ITEM 14

The dress is expensive.

**ITEM 15**

The painting is highly valuable.

ITEM 16

How large is your new apartment?

ITEM 17

How far is the nearest gas station?

ITEM 18

How large is the box?

ITEM 19

The room is perfectly square.

ITEM 20

How deep is the pool?

ITEM 21

How fast is the car?

ITEM 22

How valuable is the painting?

ITEM 23

How expensive is the dress?

ITEM 24

The table is six feet long.
