ENGLISH LADDER

Concept #40 ▶ **So | Such**

We often use **"so"** or **"such"** to refer to a quantity or degree that causes something. But these two words are used differently.

{ **"so"** + **adjective** + Ø } { **"such"** + **article** + **adjective** + **noun** }

- The flight was **so long** (that) I fell asleep. 
 - The flight was **such a long trip** (that) I fell asleep.
- My cat is **so fun** (that) I'm never bored. 
 - I've **such a fun cat** (that) I'm never bored.
- Tokyo is **so large** (that) I always get lost. 
 - Tokyo is **such a large city** (that) I always get lost.
- John worked **so hard** (that) he got a raise. 
 - John was **such a hard worker** (that) he got a raise.
- The joke was **so funny** (that) I laughed loudly. 
 - It was **such a funny joke** (that) I laughed loudly.

Note: The word "that" is optional in all ten of these sentences.
Note: Articles are not needed with plural nouns such as in "such fun cats".

At a Glance

Lesson focus "So" and "Such"	Suggested timing 45-60 minutes
Core objective Students explain the target pattern clearly and apply it accurately in controlled practice and discussion.	Materials Student PDF, the concept image, board space, and time for partner checking.

Suggested Lesson Flow

Warm-up	Display the concept image and ask learners to predict the rule behind "So" and "Such" before reading the explanation.
Model	Walk through the Core Idea and the sections on Key Points. Pause after each part so students can restate the pattern in plain English.
Guided practice	Project two or three examples from the concept sheet and ask pairs to explain why each choice works, not just what the answer is.
Independent work	Assign the 24 practice items for quiet work, partner checking, and final feedback.
Closure	Ask students to create one new sentence or mini-example of their own that follows the same pattern.

Likely Learner Errors

- Learners may overgeneralize the first pattern they notice. Keep returning to **Key Points** and ask students to explain what changes from one example to the next.
- Long explanations can hide the signal word or structure. Have students underline the exact phrase that tells them which form, pattern, or response is needed.
- If students can choose an answer but cannot explain it, ask them to justify their choice using words taken directly from the concept sheet.

Differentiation and Delivery Notes

- Support: teach one section at a time, then send students back to **the examples** or the practice set so they can apply the same rule immediately.
- Pair work: let students compare answers aloud before you reveal the key. The explanation step is as important as the final answer.
- Extension: ask stronger students to write two fresh examples or a short dialogue that uses the same target language accurately.

Model Language from the Concept Sheet

- "The flight was so long (that) I fell asleep." Here, "so long" stresses the length of the flight, with the outcome that the speaker fell asleep due to the prolonged duration.
- "He drove so quickly (that) we arrived ahead of schedule." In this case, "so quickly" emphasizes the speed at which the driving occurred, leading to the result of an early arrival.
- "The weather was so cold (that) the lake froze overnight."
- "She speaks so softly (that) I can barely hear her."
- "He ran so fast (that) he won the race by a large margin."
- "It was such a long trip (that) I fell asleep." "Such a long trip" underscores the unusual length of the trip, leading to the result that the speaker fell asleep.
