

ENGLISH FOR WORK / SEPTEMBER 2026

Education Administration English

Conversation lab

8 complete workplace dialogues, followed by eight additional role-play cases. Study the exchanges, then make the conversation your own.

PRACTICE THAT TRANSFERS TO WORK

Read a realistic case. Study complete conversations. Find the right language, speak, get feedback, and try again.

Eight lessons | Intermediate to advanced | Independent or classroom study

For school administrators, curriculum coordinators, student-services staff, program directors, admissions teams, registrars, and education operations leaders.

All cases and figures are fictional. Adapt the language to your role and organization's current procedures, using invented details for practice.

All scenarios, figures, and model responses are fictional teaching material. Use invented details in practice.

[Open this course on English Ladder](#)

Inside this conversation lab

Original fictional training conversations in professional English. These are realistic scripts, not transcripts of actual people. The professional roles are the speaker labels; all figures, incidents, and organizations are invented.

01 Enrollment capacity

02 A student support handoff

03 Curriculum scheduling conflict

04 A parent communication correction

05 Faculty workload planning

06 Student-record request

07 Accreditation program review

08 Budget priorities

Then try eight independent role-play cases, followed by feedback criteria and references.

Read it. Hear it. Make it yours.

1. Read the setting. Identify the roles, the immediate problem, and what each speaker needs.
2. Read the whole conversation aloud with a partner. In a group, give a third person the observer role. For three-speaker scripts, assign each professional a separate voice.
3. Notice how the speakers ask a specific question, qualify a claim, disagree, explain a technical point, or agree on a next step. Underline language you would actually use.
4. Cover the script. Recreate the exchange using the situation and professional roles. Keep the meaning, but change the wording.
5. Switch roles and introduce a complication: a missing record, a different priority, an unavailable colleague, or a changed assumption. End with a clear outcome or unresolved question.

Register and terminology

These colleagues use concise professional language. In an internal technical meeting, familiar abbreviations can be natural. With a new colleague or a client, expand unfamiliar terms and check understanding. Keep disagreement directed at the evidence or proposal, and match the degree of certainty to what is known.

Independent study

Speak each role aloud. Pause before the reply and supply your own response before revealing the next line. Record a second version using invented details, then compare its clarity and tone with the script.

Professional context

All cases and figures are fictional. Adapt the language to your role and organization's current procedures, using invented details for practice.

FULL DIALOGUE 01 / 6 SPEAKING TURNS

Enrollment capacity

A school team reviews applications for a full program.

Roles: Admissions coordinator / Program director

Admissions coordinator: We have twelve eligible applicants and eight available places. How should we handle the remaining four?

Program director: Apply the published admissions criteria and waitlist process consistently. Don't invent a new priority rule.

Admissions coordinator: Two families have asked whether an informal recommendation guarantees a place.

Program director: Clarify that it doesn't. Explain the documented process and available review route.

Admissions coordinator: I'll verify the capacity figure and prepare consistent notices.

Program director: I'll review them for accuracy before they go out.

Notice the professional language

admissions criteria - The stated requirements used to assess applications for entry to a program.

Rehearse and extend with AI

Explain the issue and the agreed next step without reading. Identify any point still awaiting evidence, agreement, or approval. Then replay the exchange with a changed constraint and a new ending.

Observer: note one natural professional expression and one place where the follow-up made the meaning clearer.

FULL DIALOGUE 02 / 6 SPEAKING TURNS

A student support handoff

Staff coordinate a student's support referral.

Roles: Student services coordinator / Academic adviser

Student services coordinator: The referral was submitted, but the student says nobody has contacted them.

Academic adviser: I can check receipt through the approved system. What follow-up was promised?

Student services coordinator: A contact from the support team, but no named owner was recorded.

Academic adviser: I'll ask that team to acknowledge the referral and confirm responsibility.

Student services coordinator: I'll explain the next step to the student without sharing unnecessary sensitive details.

Academic adviser: Record the contact and any unresolved barrier so the referral doesn't disappear between teams.

Notice the professional language

Discuss this wording: "I can check receipt through the approved system. What follow-up was promised?" What does it help the other professional clarify?

Rehearse and extend with AI

Explain the issue and the agreed next step without reading. Identify any point still awaiting evidence, agreement, or approval. Then replay the exchange with a changed constraint and a new ending.

Observer: note one natural professional expression and one place where the follow-up made the meaning clearer.

FULL DIALOGUE 03 / 6 SPEAKING TURNS

Curriculum scheduling conflict

Two departments need the same teaching space.

Roles: Timetabling officer / Department chair

Timetabling officer: Both labs are scheduled for Wednesday afternoon, but only one suitable room is available.

Department chair: Our course requires the specialist equipment. Does the other course need it too?

Timetabling officer: Only for two sessions. I can explore a room swap for the remaining weeks.

Department chair: Check instructor availability and student conflicts before confirming it.

Timetabling officer: I'll produce options with the affected sessions clearly marked.

Department chair: We'll review them against learning requirements rather than simply allocate the room to the first request.

Notice the professional language

Discuss this wording: "Our course requires the specialist equipment. Does the other course need it too?" What does it help the other professional clarify?

Rehearse and extend with AI

Explain the issue and the agreed next step without reading. Identify any point still awaiting evidence, agreement, or approval. Then replay the exchange with a changed constraint and a new ending.

Observer: note one natural professional expression and one place where the follow-up made the meaning clearer.

FULL DIALOGUE 04 / 6 SPEAKING TURNS

A parent communication correction

A school corrects an inaccurate assessment notice.

Roles: School administrator / Year coordinator

School administrator: Our notice says results are final, but moderation hasn't finished.

Year coordinator: We need to correct that promptly. The marks are provisional until the review is complete.

School administrator: Should we wait and explain it only if parents ask?

Year coordinator: No. Send a clear correction to the same audience and explain the actual status.

School administrator: I'll draft the correction and confirm the expected update date.

Year coordinator: I'll verify the wording with the assessment lead before distribution.

Notice the professional language

Discuss this wording: "Should we wait and explain it only if parents ask?" What does it help the other professional clarify?

Rehearse and extend with AI

Explain the issue and the agreed next step without reading. Identify any point still awaiting evidence, agreement, or approval. Then replay the exchange with a changed constraint and a new ending.

Observer: note one natural professional expression and one place where the follow-up made the meaning clearer.

FULL DIALOGUE 05 / 6 SPEAKING TURNS

Faculty workload planning

A department discusses an additional section.

Roles: Department chair / Scheduling administrator

Department chair: Can we add another section using the current teaching allocation?

Scheduling administrator: Not without reviewing contact hours, preparation, and the existing workload agreements.

Department chair: Enrollment demand is higher than expected. What options can we assess?

Scheduling administrator: Additional staffing, a revised timetable, or a different section size within applicable limits.

Department chair: I'll confirm the instructional requirements and available budget.

Scheduling administrator: Then we can compare feasible options and obtain the required approval before advertising the section.

Notice the professional language

Discuss this wording: "Can we add another section using the current teaching allocation?" What does it help the other professional clarify?

Rehearse and extend with AI

Explain the issue and the agreed next step without reading. Identify any point still awaiting evidence, agreement, or approval. Then replay the exchange with a changed constraint and a new ending.

Observer: note one natural professional expression and one place where the follow-up made the meaning clearer.

FULL DIALOGUE 06 / 6 SPEAKING TURNS

Student-record request

An outside organization requests a student list.

Roles: Registrar / Privacy coordinator

Registrar: A partner wants a list of students and their grades for recruitment. Can I send it?

Privacy coordinator: We need to review the purpose, authority, and applicable student-record rules before disclosure.

Registrar: They say another department shared something similar last year.

Privacy coordinator: That doesn't establish permission for this request. Ask for the specific fields and intended use.

Registrar: I'll route it through the approved review and hold the export.

Privacy coordinator: I'll confirm the permitted response and any consent or other requirements that apply.

Notice the professional language

Discuss this wording: "A partner wants a list of students and their grades for recruitment. Can I send it?" What does it help the other professional clarify?

Rehearse and extend with AI

Explain the issue and the agreed next step without reading. Identify any point still awaiting evidence, agreement, or approval. Then replay the exchange with a changed constraint and a new ending.

Observer: note one natural professional expression and one place where the follow-up made the meaning clearer.

FULL DIALOGUE 07 / 6 SPEAKING TURNS

Accreditation program review

A program team compares evidence with a stated outcome.

Roles: Program director / Quality officer

Program director: The self-study says every graduate meets this outcome. Our evidence covers only one cohort.

Quality officer: Then the claim needs narrowing or more evidence. How was that cohort assessed?

Program director: A common rubric, but scoring consistency hasn't been reviewed.

Quality officer: Describe those limits and include the moderation plan.

Program director: I'll link the assessment evidence to the outcome and identify the remaining gaps.

Quality officer: Good. An accurate improvement plan is more credible than a stronger claim the records can't support.

Notice the professional language

Discuss this wording: "Then the claim needs narrowing or more evidence. How was that cohort assessed?" What does it help the other professional clarify?

Rehearse and extend with AI

Explain the issue and the agreed next step without reading. Identify any point still awaiting evidence, agreement, or approval. Then replay the exchange with a changed constraint and a new ending.

Observer: note one natural professional expression and one place where the follow-up made the meaning clearer.

FULL DIALOGUE 08 / 6 SPEAKING TURNS

Budget priorities

An administrator evaluates competing funding requests.

Roles: Finance manager / School leader

Finance manager: The requests exceed the available budget by \$30,000. Which costs are essential this year?

School leader: Staffing for the existing program is essential. The equipment upgrade has options.

Finance manager: Separate replacement needs from desirable enhancements and include ongoing costs.

School leader: I'll ask each team to explain the educational impact of deferral.

Finance manager: We'll compare those impacts using the same budget assumptions.

School leader: Then I'll bring a prioritized proposal to the decision group, with the tradeoffs explicit.

Notice the professional language

Discuss this wording: "The requests exceed the available budget by \$30,000. Which costs are essential this year?" What does it help the other professional clarify?

Rehearse and extend with AI

Explain the issue and the agreed next step without reading. Identify any point still awaiting evidence, agreement, or approval. Then replay the exchange with a changed constraint and a new ending.

Observer: note one natural professional expression and one place where the follow-up made the meaning clearer.

Eight more situations to make your own

The following cases are open role plays. They give you facts, contrasting roles, useful expressions, and a short model response. Use what you learned from the complete dialogues to create a longer exchange.

Preparation: two minutes. Conversation: three to five minutes. Feedback: one minute. Switch roles and repeat with the second-round challenge.

ROLE-PLAY CASE 01

Enrollment, Admissions, and Placement

SHARED CASE

A family asks why an applicant was not offered a place. The administrator needs to explain the published process without discussing other applicants.

Role A | Responding professional

Clarify missing information before responding. Use only the facts given. Choose two relevant terms and be ready to explain one of them in ordinary words.

Role B | Listener

You need to know exactly what information is missing. Give one answer only after your partner asks a focused question; then ask them to confirm their understanding.

Useful expressions

When you say ..., do you mean ...?

Could you clarify which ...?

So, my understanding is Is that right?

Cover this until after your first attempt

I can explain the published criteria and the next steps available for this application. Which part of the decision notice would you like me to clarify? I cannot discuss another applicant's record.

Second round

The other person uses an ambiguous word such as 'ready', 'approved', or 'urgent'. Clarify it before continuing.

Debrief and extend with AI

Which phrase helped the listener? Which case fact needed clarification? Write one better follow-up question, then repeat the exchange.

ROLE-PLAY CASE 02

Curriculum Planning and Learning Outcomes

SHARED CASE

A curriculum plan lists topics but no observable learning outcomes. Teachers disagree about what an assessment should measure.

Role A | Responding professional

Explain a useful distinction in plain English. Use only the facts given. Choose two relevant terms and be ready to explain one of them in ordinary words.

Role B | Listener

You are unfamiliar with one technical term in the case. Ask for a plain-English explanation and then paraphrase it. Do not pretend to understand a term you cannot explain.

Useful expressions

In this context, ... means

The difference is that

How would you explain that distinction to a colleague?

Cover this until after your first attempt

A topic says what we cover; an outcome says what learners should be able to do. Let's define those performances first, then check whether the assessment gives learners a chance to demonstrate them.

Second round

Your listener is new to this field. Replace two specialist expressions with clear explanations without changing the meaning.

Debrief and extend with AI

Which phrase helped the listener? Which case fact needed clarification? Write one better follow-up question, then repeat the exchange.

ROLE-PLAY CASE 03

Student Support and Intervention

SHARED CASE

A support meeting has attendance information but no record of which interventions have already been tried.

Role A | Responding professional

Make a request with a clear action, purpose, and realistic timing. Use only the facts given. Choose two relevant terms and be ready to explain one of them in ordinary words.

Role B | Listener

You can help but need a clear request and its purpose. Ask what is required and whether the timing is fixed or negotiable.

Useful expressions

Could you provide ... so that ...?

Please confirm ... by [agreed time].

If that timing is not possible, please let me know

Cover this until after your first attempt

Could you bring the relevant attendance pattern and the support actions already attempted? We can use those records to plan the discussion and avoid repeating an approach without reviewing its effect.

Second round

The other person cannot meet the requested timing. Clarify an alternative without inventing authority to change a formal deadline.

Debrief and extend with AI

Which phrase helped the listener? Which case fact needed clarification? Write one better follow-up question, then repeat the exchange.

ROLE-PLAY CASE 04

Parent and Guardian Communication

SHARED CASE

A guardian says an email sounded accusatory. The school intended to request a meeting about repeated late arrivals.

Role A | Responding professional

Acknowledge a communication problem and give a corrected message. Use only the facts given. Choose two relevant terms and be ready to explain one of them in ordinary words.

Role B | Listener

You are frustrated because an earlier message created an expectation. Explain that expectation. Ask your partner to distinguish the correction from anything still uncertain.

Useful expressions

My earlier message did not make ... clear.

I'm sorry for The correct information is

Let me check that the revised explanation addresses

Cover this until after your first attempt

I'm sorry the wording sounded accusatory. The purpose is to understand the late arrivals and discuss support. Could we arrange a time to review the pattern and hear your perspective?

Second round

The listener remains disappointed after the correction. Acknowledge the impact and restate the available next step calmly.

Debrief and extend with AI

Which phrase helped the listener? Which case fact needed clarification? Write one better follow-up question, then repeat the exchange.

ROLE-PLAY CASE 05

Faculty Coordination and Evaluation

SHARED CASE

Two teachers use different interpretations of the same grading rubric. Students receive inconsistent explanations.

Role A | Responding professional

Describe observed behavior, its effect, and a useful next step. Use only the facts given. Choose two relevant terms and be ready to explain one of them in ordinary words.

Role B | Listener

You can explain a practical obstacle affecting the work. Share it after your partner asks for your perspective, then agree on one observable change.

Useful expressions

In [specific situation], I noticed

The effect was What was happening from your perspective?

Could we agree to ... and review it ...?

Cover this until after your first attempt

Let's compare the descriptors against the same sample of work. Where do our interpretations differ? We can agree on clearer explanations and examples before using the rubric again.

Second round

The recipient disagrees with your interpretation. Return to the observed example, listen, and revise an unsupported assumption.

Debrief and extend with AI

Which phrase helped the listener? Which case fact needed clarification? Write one better follow-up question, then repeat the exchange.

ROLE-PLAY CASE 06

Compliance, Records, and Privacy

SHARED CASE

A colleague asks for an entire student file for a narrow administrative task. The authorized scope is unclear.

Role A | Responding professional

Make a request with a clear action, purpose, and realistic timing. Use only the facts given. Choose two relevant terms and be ready to explain one of them in ordinary words.

Role B | Listener

You can help but need a clear request and its purpose. Ask what is required and whether the timing is fixed or negotiable.

Useful expressions

Could you provide ... so that ...?

Please confirm ... by [agreed time].

If that timing is not possible, please let me know ...

Cover this until after your first attempt

Could you identify the purpose and the specific records needed? Let's confirm the permitted access and sharing process before providing information from the file.

Second round

The other person cannot meet the requested timing. Clarify an alternative without inventing authority to change a formal deadline.

Debrief and extend with AI

Which phrase helped the listener? Which case fact needed clarification? Write one better follow-up question, then repeat the exchange.

ROLE-PLAY CASE 07

Accreditation and Program Review

SHARED CASE

A program review action plan lists five actions. Three are complete, one is underway, and one has no assigned owner.

Role A | Responding professional

Distinguish completed work from pending work and explain its impact. Use only the facts given. Choose two relevant terms and be ready to explain one of them in ordinary words.

Role B | Listener

You need to brief someone who has only one minute. Ask what is complete, what is open, and which open item affects the next action.

Useful expressions

We have completed ...; ... remains open.

As of ..., the status is

The next update will cover

Cover this until after your first attempt

Three actions are complete and one is underway. The fifth needs an owner and a target date. I'll make that outstanding decision visible in the program review update.

Second round

The listener asks you to reduce the update to two sentences. Preserve the most important completed and pending items.

Debrief and extend with AI

Which phrase helped the listener? Which case fact needed clarification? Write one better follow-up question, then repeat the exchange.

ROLE-PLAY CASE 08

Budget, Staffing, and Institutional Priorities

SHARED CASE

A department can open another class by reallocating staff or hiring temporary support. Each option affects workload differently.

Role A | Responding professional

Compare options using the same criteria and state the tradeoff. Use only the facts given. Choose two relevant terms and be ready to explain one of them in ordinary words.

Role B | Listener

You favor one option but have not checked whether the scope is comparable. Ask about one difference, then explain the tradeoff you are willing to accept.

Useful expressions

Both options ..., but

Option A ..., whereas option B

The comparison depends on

Cover this until after your first attempt

Reallocation uses existing staff but changes their workload; temporary support adds cost and preparation needs. Let's compare the implications for learners and staff before choosing an option.

Second round

Your listener focuses only on the lowest price or fastest date. Explain one other relevant comparison criterion.

Debrief and extend with AI

Which phrase helped the listener? Which case fact needed clarification? Write one better follow-up question, then repeat the exchange.

Lesson conversations and speaking practice

The following sections match 05 and 06 on the industry webpage and in the learner workbook. Each lesson has three ten-turn conversations and two bounded speaking scenarios. These are original fictional teaching scripts, not transcripts of real people.

LESSON 01 / 05 • CONVERSATIONS / 1 OF 3

Explain the applicant's process, not other applicants

Fictional admissions inquiry using the lesson case: a family asks why an applicant was not offered a place; the administrator has not reviewed the applicant-specific decision record.

01 • Family liaison: The family wants to know why their applicant wasn't offered a place. What can we explain?

02 • Admissions officer: First clarify whether they want the published admissions criteria, their decision record, or the review process.

03 • Family liaison: They asked whether another applicant took the place. Should we compare the two applications for them?

04 • Admissions officer: No. We should explain their own process without discussing another applicant's information.

05 • Family liaison: Can we say limited capacity caused the decision, even though we haven't reviewed this applicant's record?

06 • Admissions officer: Not yet. Capacity may be relevant generally, but we must not invent this decision's reason.

07 • Family liaison: I'll ask which part of the process they need clarified and route the applicant-specific question appropriately.

08 • Admissions officer: Good. Use the published process and the authorized record, keeping any unknown reason explicitly unresolved.

09 • Family liaison: That lets us address equity concerns without making unsupported comparisons between children.

10 • Admissions officer: Exactly. I'll identify the appropriate admissions contact so the family receives a clear, individual response.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 01 / 05 • CONVERSATIONS / 2 OF 3

Language placement is not an admissions decision

Fictional school inquiry: an admitted learner awaits a language-placement review, and a family liaison asks whether admission itself is uncertain.

01 • Family liaison: The learner's placement review is pending. Does that mean the school hasn't admitted them yet?

02 • Enrollment coordinator: In this case admission is confirmed. The pending review concerns the appropriate language-learning group.

03 • Family liaison: Then I should distinguish admission from placement rather than tell the family their place is uncertain.

04 • Enrollment coordinator: Correct. Placement concerns the learning arrangement, while the admissions decision is already recorded here.

05 • Family liaison: Can I promise the advanced group if the family says the learner studied English previously?

06 • Enrollment coordinator: No. That information can support the review, but it doesn't establish its outcome.

07 • Family liaison: What focused question should I ask the placement team before speaking with the family?

08 • Enrollment coordinator: Ask which information remains needed and how the family will receive the reviewed placement decision.

09 • Family liaison: I'll avoid guessing a group or deadline that the team hasn't confirmed.

10 • Enrollment coordinator: Thank you. A clear distinction can reassure the family without promising a placement we don't control.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 01 / 05 • CONVERSATIONS / 3 OF 3

A waiting-list position is not an offer date

Fictional enrollment discussion: a family has been told their applicant is on a waiting list; no future opening or offer date is confirmed.

01 • School receptionist: The family is on the waiting list. Can I tell them a place will open next month?

02 • Admissions administrator: No opening or offer date is confirmed. Could you clarify whether they are asking about status or likely timing?

03 • School receptionist: They want to plan transport, so an approximate date would help them make arrangements.

04 • Admissions administrator: We can acknowledge that need without inventing availability. Explain that waiting-list status isn't an offer.

05 • School receptionist: Should I ask how many other applicants are ahead and share their circumstances to explain the delay?

06 • Admissions administrator: Use only information authorized by the published process, and don't disclose other applicants' circumstances.

07 • School receptionist: I'll ask the admissions team what status information can be provided for this specific inquiry.

08 • Admissions administrator: Good. Also distinguish confirmed capacity from possible changes that haven't resulted in an available place.

09 • School receptionist: The family will hear that timing remains unknown and receive the correct contact for updates.

10 • Admissions administrator: That is clear and fair, without an unsupported date or comparison with another applicant.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 01 / 06 • SAY IT

Two scenarios to practice

Use only the supplied facts. Prepare for two minutes, speak for one minute, then respond to a follow-up. Switch roles and repeat. For solo study, speak both roles aloud.

Scenario 1 | Enrollment, Admissions, and Placement

A family asks why an applicant was not offered a place. The administrator needs to explain the published process without discussing other applicants.

Prepare for two minutes. Speak for 45-60 seconds using the case facts, then respond to your partner's question. Switch roles and repeat without reading the model response.

Partner: You need to know exactly what information is missing. Give one answer only after your partner asks a focused question; then ask them to confirm their understanding.

Second round: The other person uses an ambiguous word such as 'ready', 'approved', or 'urgent'. Clarify it before continuing.

Model for scenario 1: I can explain the published criteria and the next steps available for this application. Which part of the decision notice would you like me to clarify? I cannot discuss another applicant's record.

Scenario 2 | A transfer request with an unclear start date

A fictional family asks to transfer a learner next term, but the request does not identify the program or whether they mean the first day or a later date. Capacity and placement review are unconfirmed. Clarify the request before discussing availability.

Role A: Enrollment coordinator: ask for the intended program and timing.

Role B: Family liaison: relay the request and identify missing information without promising a place.

Possible opening: Could you clarify which program and start date the family is asking us to consider?

Success checks

- Clarify program and timing separately.
- Keep capacity and placement unconfirmed.
- Agree the next admissions inquiry without an offer promise.

Add a complication: The liaison asks to reserve a place before the program is identified.

LESSON 02 / 05 • CONVERSATIONS / 1 OF 3

A topic is not an observable learning outcome

Fictional curriculum meeting using the lesson case: a plan lists topics, but teachers disagree about what the assessment should measure.

01 • Curriculum coordinator: The plan lists persuasive writing. What should learners be able to do that we can actually observe?

02 • Teacher: They should state a clear claim and support it with reasons in a short written argument.

03 • Curriculum coordinator: That is a proposed learning outcome, while persuasive writing is the broader topic label.

04 • Teacher: Then a spelling quiz alone wouldn't show whether learners can support a written claim.

05 • Curriculum coordinator: Correct. The assessment should provide evidence of the outcome we agree, not merely relate to the same topic.

06 • Teacher: Should we place that outcome in the curriculum map and check the relevant program standard?

07 • Curriculum coordinator: Yes. We need to confirm alignment rather than claim the proposal already satisfies an unreviewed standard.

08 • Teacher: I'll bring a sample writing task so colleagues can discuss what evidence it would produce.

09 • Curriculum coordinator: Good. Let's agree the outcome before debating marks for a task that may measure something else.

10 • Teacher: I'll label it a proposal and invite the other teachers to refine the observable performance.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 02 / 05 • CONVERSATIONS / 2 OF 3

Completing an activity does not prove the outcome

Fictional curriculum review: learners completed a group poster, while the intended outcome is explaining a cause-and-effect relationship individually.

01 • Department head: Every group finished a poster. Can we mark the cause-and-effect outcome as achieved for every learner?

02 • Assessment coordinator: Poster completion is evidence of finishing the activity, not necessarily each learner's ability to explain the relationship.

03 • Department head: So the product and the individual learning outcome aren't the same thing in our curriculum map.

04 • Assessment coordinator: Exactly. The group artifact may contribute evidence, but individual understanding still needs an appropriate check.

05 • Department head: Would a short individual explanation align more directly with the stated outcome than counting finished posters?

06 • Assessment coordinator: That is a useful proposal. Teachers should review its accessibility and criteria before using it.

07 • Department head: I won't describe all learners as having mastered the outcome based solely on group completion.

08 • Assessment coordinator: Good. We can recognize the completed work while keeping the learning claim appropriately bounded.

09 • Department head: I'll bring the proposed explanation task to the team and ask what performance would meet the criterion.

10 • Assessment coordinator: Then the assessment discussion will focus on observable learning rather than completion alone.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 02 / 05 • CONVERSATIONS / 3 OF 3

Coverage in a curriculum map is not depth of learning

Fictional program review: a topic appears in three units of a curriculum map, but the intended progression between units is unspecified.

01 • Program director: The topic appears in three units. Does that show a clear progression in our curriculum?

02 • Curriculum specialist: It shows repeated coverage, but we haven't specified how the learning outcome develops across those units.

03 • Program director: Could you explain progression in plain English so teachers know what we need to examine?

04 • Curriculum specialist: It means identifying what learners should do with greater complexity or independence at each stage.

05 • Program director: Then repeating the same topic title doesn't establish that later assessments demand deeper understanding.

06 • Curriculum specialist: Correct. We should compare the intended performances and their assessment evidence, not just count map entries.

07 • Program director: I'll ask each unit owner to explain the observable outcome and what prior learning it assumes.

08 • Curriculum specialist: Please also flag assumptions that aren't supported by earlier assessment information.

09 • Program director: That will let us identify possible gaps without claiming learners have failed anything yet.

10 • Curriculum specialist: Exactly. We'll revise the progression proposal after reviewing the actual outcomes and evidence requirements together.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 02 / 06 • SAY IT

Two scenarios to practice

Use only the supplied facts. Prepare for two minutes, speak for one minute, then respond to a follow-up. Switch roles and repeat. For solo study, speak both roles aloud.

Scenario 1 | Curriculum Planning and Learning Outcomes

A curriculum plan lists topics but no observable learning outcomes. Teachers disagree about what an assessment should measure.

Prepare for two minutes. Speak for 45-60 seconds using the case facts, then respond to your partner's question. Switch roles and repeat without reading the model response.

Partner: You are unfamiliar with one technical term in the case. Ask for a plain-English explanation and then paraphrase it. Do not pretend to understand a term you cannot explain.

Second round: Your listener is new to this field. Replace two specialist expressions with clear explanations without changing the meaning.

Model for scenario 1: A topic says what we cover; an outcome says what learners should be able to do. Let's define those performances first, then check whether the assessment gives learners a chance to demonstrate them.

Scenario 2 | Understand data needs a clearer performance

A fictional unit lists understand data as its learning outcome. Teachers have proposed either reading a chart aloud or explaining a comparison between two values. Neither task is approved. Discuss which observable performance matches the intended learning.

Role A: Curriculum coordinator: ask what understanding should look like.

Role B: Teacher: explain the difference between reading values and interpreting a comparison.

Possible opening: What should learners be able to demonstrate when we say they understand the data?

Success checks

- Distinguish attendance, activity, and learning evidence.
- Propose an observable outcome.
- Keep assessment approval pending the curriculum review.

Add a complication: A colleague wants to treat attendance at the lesson as evidence of achievement.

LESSON 03 / 05 • CONVERSATIONS / 1 OF 3

Attendance records do not show previous support

Fictional student-support meeting using the lesson case: attendance information is available, but previously attempted interventions are undocumented.

01 • Support coordinator: We have attendance records. Could you provide the record of interventions already tried before our next meeting?

02 • Class teacher: I don't have a consolidated record. Several colleagues may have offered support without sharing the details here.

03 • Support coordinator: Please ask the authorized staff what was offered, when, and what response was observed.

04 • Class teacher: Should we assume no intervention occurred because nothing appears in this meeting's notes?

05 • Support coordinator: No. Missing documentation doesn't establish no support. We need to clarify the history before proposing another step.

06 • Class teacher: I'll request relevant information through the student-support channel rather than circulate personal details broadly.

07 • Support coordinator: Thank you. Separate an accommodation already agreed from an intervention merely suggested during discussion.

08 • Class teacher: Can I bring gaps explicitly if some colleagues haven't replied before the meeting?

09 • Support coordinator: Yes. State what is verified and what remains unknown so the team can plan responsibly.

10 • Class teacher: I'll bring the available history and avoid making unsupported claims about the student's needs or response.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 03 / 05 • CONVERSATIONS / 2 OF 3

A suggested check-in has not started

Fictional support review: a weekly student check-in was proposed, but the staff owner and start date were never confirmed.

01 • Year coordinator: The plan mentions weekly check-ins. Could you confirm who is delivering them and when they began?

02 • Support teacher: Those details weren't agreed. The check-in was a proposal, not a support activity already underway.

03 • Year coordinator: Then we shouldn't interpret unchanged attendance as evidence that this intervention failed.

04 • Support teacher: Correct. We don't have confirmed delivery or outcome records for that proposed support.

05 • Year coordinator: Please ask the support lead to clarify ownership, feasibility, and the intended review point before our meeting.

06 • Support teacher: I'll do that. Should I tell the family the check-ins are guaranteed to begin next week?

07 • Year coordinator: Not before staffing and the appropriate agreement are confirmed. We can explain the proposal's current status.

08 • Support teacher: I'll request the decision through the established student-support process and keep personal information appropriately restricted.

09 • Year coordinator: Good. We need a clear action request, not a retrospective claim that an unstarted intervention was ineffective.

10 • Support teacher: I'll return with confirmed arrangements or explicit gaps, so the team can distinguish planning from delivery.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 03 / 05 • CONVERSATIONS / 3 OF 3

Request evidence about a classroom arrangement

Fictional support discussion: a quieter work location was offered during two lessons; no observation of its effect has been recorded.

01 • Student-support lead: Could you share what was observed when the quieter work location was offered in those two lessons?

02 • Class teacher: The offer is recorded, but I haven't documented whether the learner used it or how it affected participation.

03 • Student-support lead: Please clarify those observations before we describe the arrangement as effective or ineffective.

04 • Class teacher: Would my general impression that the class was calmer count as the learner-specific evidence we need?

05 • Student-support lead: It may be context, but it doesn't establish that learner's use or response to the arrangement.

06 • Class teacher: I'll review my available notes and identify what I can actually support, without reconstructing missing observations.

07 • Student-support lead: Thank you. Keep the request focused on educational participation, not an unsupported diagnosis or explanation.

08 • Class teacher: Can we ask the relevant support professional what further observation would help at the next review?

09 • Student-support lead: Yes, through the established process and with the appropriate privacy boundaries for student information.

10 • Class teacher: I'll bring verified observations and open questions rather than turn a two-lesson offer into a proven outcome.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 03 / 06 • SAY IT

Two scenarios to practice

Use only the supplied facts. Prepare for two minutes, speak for one minute, then respond to a follow-up. Switch roles and repeat. For solo study, speak both roles aloud.

Scenario 1 | Student Support and Intervention

A support meeting has attendance information but no record of which interventions have already been tried.

Prepare for two minutes. Speak for 45-60 seconds using the case facts, then respond to your partner's question. Switch roles and repeat without reading the model response.

Partner: You can help but need a clear request and its purpose. Ask what is required and whether the timing is fixed or negotiable.

Second round: The other person cannot meet the requested timing. Clarify an alternative without inventing authority to change a formal deadline.

Model for scenario 1: Could you bring the relevant attendance pattern and the support actions already attempted? We can use those records to plan the discussion and avoid repeating an approach without reviewing its effect.

Scenario 2 | Two staff may be offering the same support

A fictional learner may be receiving similar organizational check-ins from two staff members. The schedule and purpose of each are unconfirmed. Request coordination before adding a third session; do not infer needs or effectiveness.

Role A: Support coordinator: ask for the existing support schedule and purpose.

Role B: Year tutor: identify the relevant staff contacts and keep gaps explicit.

Possible opening: Before adding another session, could we confirm what support is already happening and what each check-in is intended to address?

Success checks

- Request existing support facts before proposing more.
- Avoid assuming effectiveness or duplication is confirmed.
- Agree a privacy-conscious coordination step.

Add a complication: A colleague says more sessions must always be better.

LESSON 04 / 05 • CONVERSATIONS / 1 OF 3

Replace the accusatory late-arrival email

Fictional guardian communication using the lesson case: a guardian found an email accusatory; the intended purpose was to request a meeting about repeated late arrivals.

01 • Family liaison: The guardian says the late-arrival email sounded accusatory. How should we correct the message?

02 • School administrator: We should acknowledge that wording and state the actual purpose without assuming why the arrivals were late.

03 • Family liaison: Could you give me the revised opening to use when I speak with them?

04 • School administrator: I'm sorry our email sounded accusatory. We would like to discuss the recorded late arrivals and hear your perspective.

05 • Family liaison: That invites discussion instead of presenting a discipline conclusion before the meeting has occurred.

06 • School administrator: Exactly. We should not infer a cause or imply a decision that hasn't been made.

07 • Family liaison: If the guardian asks about an appeal, should I explain a procedure from memory?

08 • School administrator: Refer to the applicable school process and confirm the correct contact rather than inventing procedural details.

09 • Family liaison: I'll keep the conversation focused on their child and protect confidentiality about other students.

10 • School administrator: Thank you. End by agreeing how to arrange the meeting, without making unsupported promises about its outcome.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 04 / 05 • CONVERSATIONS / 2 OF 3

A group email revealed an individual concern

Fictional communication repair: an administrator sent a meeting request about one learner to a broader staff group than intended; sharing authorization is under review.

01 • Family liaison: The guardian is upset that a wider staff group received the meeting request about their child.

02 • School administrator: I need to acknowledge that concern. The recipient scope is under review, and I won't assume it was appropriate.

03 • Family liaison: What can I say now without promising that every copy has already been removed?

04 • School administrator: I'm sorry the message went to a wider group than intended. We are reviewing its handling through the school process.

05 • Family liaison: Should I describe this as a confirmed legal violation before the responsible reviewer has assessed it?

06 • School administrator: No. Explain the known sending error and review status without making an unverified legal conclusion.

07 • Family liaison: I'll avoid repeating the learner's details while coordinating the response with the authorized privacy contact.

08 • School administrator: Good. We should also clarify the intended meeting purpose separately from the communication problem.

09 • Family liaison: I'll tell the guardian who will follow up and ask which contact method they prefer.

10 • School administrator: Thank you. The corrected response should accept the communication error without inventing the review's outcome.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 04 / 05 • CONVERSATIONS / 3 OF 3

A pending decision was presented as final

Fictional school exchange: a message described a proposed timetable change as final, although review of a family's concern is still pending.

01 • Family liaison: The family thinks their timetable concern was ignored because our message called the change final.

02 • School coordinator: That wording was incorrect. The proposal is still under review, including the concern they raised.

03 • Family liaison: Please help me explain the correction without promising that the requested timetable will be accepted.

04 • School coordinator: Our earlier message was too definite; the timetable change is proposed, and your concern remains part of the review.

05 • Family liaison: That separates the status correction from an assurance about the eventual outcome.

06 • School coordinator: Yes. We should acknowledge the confusion and give the correct contact for the ongoing discussion.

07 • Family liaison: Should we call their current inquiry a formal appeal, even though they haven't requested that process?

08 • School coordinator: No. Clarify what they are asking and use the school's applicable process rather than assign a label.

09 • Family liaison: I'll ask whether they need clarification or information about available review routes, without discussing other families.

10 • School coordinator: Good. Close with the actual pending status and the next contact, not another unsupported final decision.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 04 / 06 • SAY IT

Two scenarios to practice

Use only the supplied facts. Prepare for two minutes, speak for one minute, then respond to a follow-up. Switch roles and repeat. For solo study, speak both roles aloud.

Scenario 1 | Parent and Guardian Communication

A guardian says an email sounded accusatory. The school intended to request a meeting about repeated late arrivals.

Prepare for two minutes. Speak for 45-60 seconds using the case facts, then respond to your partner's question. Switch roles and repeat without reading the model response.

Partner: You are frustrated because an earlier message created an expectation. Explain that expectation. Ask your partner to distinguish the correction from anything still uncertain.

Second round: The listener remains disappointed after the correction. Acknowledge the impact and restate the available next step calmly.

Model for scenario 1: I'm sorry the wording sounded accusatory. The purpose is to understand the late arrivals and discuss support. Could we arrange a time to review the pattern and hear your perspective?

Scenario 2 | Urgent sounded like an emergency

A fictional school email used Urgent in its subject for a routine scheduling meeting. A guardian became worried. No emergency or disciplinary decision exists in this case. Correct the wording and agree how to arrange the meeting.

Role A: School administrator: acknowledge the unnecessary alarm and state the routine purpose.

Role B: Family liaison: ask for a clear opening and meeting-arrangement next step.

Possible opening: I'm sorry the subject line caused alarm; this is a routine scheduling discussion, not an emergency.

Success checks

- Acknowledge the sender's wording problem.
- State only the supplied routine purpose.
- Agree a clear scheduling contact without blaming the guardian.

Add a complication: A colleague wants to blame the guardian for misunderstanding the subject.

LESSON 05 / 05 • CONVERSATIONS / 1 OF 3

Two rubric interpretations need calibration

Fictional faculty coordination using the lesson case: two teachers interpret the same rubric differently and give inconsistent explanations to students.

01 • Department head: Students received different explanations of the same rubric level. Which interpretation did you each apply?

02 • Assessment lead: One teacher required two supporting examples, while the other accepted one well-developed example under the same wording.

03 • Department head: That identifies the observed difference more clearly than saying the teachers grade unfairly.

04 • Assessment lead: Yes. The effect is inconsistent guidance, but we haven't yet reviewed every affected mark.

05 • Department head: Could we compare anonymized examples together and agree how the rubric wording should be interpreted?

06 • Assessment lead: That would support calibration, meaning a shared understanding of how to apply the criteria.

07 • Department head: Please check the grading policy before proposing any changes to marks or communicating a correction.

08 • Assessment lead: Agreed. The review should distinguish interpretation, any verified marking effect, and the authorized response.

09 • Department head: I'll arrange a focused professional-development discussion with both teachers rather than attribute motives to either.

10 • Assessment lead: I'll bring the rubric and examples so the next action addresses the specific observed inconsistency.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 05 / 05 • CONVERSATIONS / 2 OF 3

An observation note needs a concrete behavior

Fictional faculty feedback: an observation note says a teacher did not engage learners; the observer recorded no learner counts but noted one unanswered invitation to speak.

01 • Faculty mentor: Your observation note says learners were disengaged. What specific behavior supports that description?

02 • Observer: I noted one invitation to speak followed by silence, but I didn't record broader participation counts.

03 • Faculty mentor: Then the note should not turn that single moment into a conclusion about every learner.

04 • Observer: I can describe the invitation and silence without claiming I know why nobody responded.

05 • Faculty mentor: Exactly. Explain the effect you observed and invite the teacher's perspective before proposing improvement.

06 • Observer: Would asking about wait time and alternative ways to participate be a constructive next step?

07 • Faculty mentor: Yes, as questions for professional development, not proof that a specific teaching approach failed.

08 • Observer: I'll revise the observation language and discuss that moment with the teacher privately.

09 • Faculty mentor: Keep any formal evaluation conclusion within the applicable process and supported evidence.

10 • Observer: Understood. My feedback will name the observed event, acknowledge its limits, and invite a practical discussion.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 05 / 05 • CONVERSATIONS / 3 OF 3

Different feedback at the same rubric level

Fictional marking review: two teachers awarded the same rubric level, but one wrote needs more evidence and the other wrote explain your examples.

01 • Course coordinator: Both teachers awarded the same level, but students heard different advice about how to improve.

02 • Assessment specialist: One comment requests more evidence; the other asks learners to explain existing examples. Those imply different actions.

03 • Course coordinator: Does that establish different grading standards, or only a feedback-language inconsistency in these examples?

04 • Assessment specialist: Neither is established yet; different work may need different advice at the same level.

05 • Course coordinator: Then we should check whether each comment matches the needs shown in the corresponding work.

06 • Assessment specialist: Exactly. Let's compare each comment with the work and rubric criterion before deciding whether clarification is needed.

07 • Course coordinator: Could we model specific feedback during the next professional-development meeting using anonymized work?

08 • Assessment specialist: Yes. That makes the next action practical while protecting student information and avoiding personal blame.

09 • Course coordinator: I'll ask both teachers to explain their intended meaning before we propose any shared guidance.

10 • Assessment specialist: I'll bring the criterion and examples so the discussion stays grounded in the observed feedback.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 05 / 06 • SAY IT

Two scenarios to practice

Use only the supplied facts. Prepare for two minutes, speak for one minute, then respond to a follow-up. Switch roles and repeat. For solo study, speak both roles aloud.

Scenario 1 | Faculty Coordination and Evaluation

Two teachers use different interpretations of the same grading rubric. Students receive inconsistent explanations.

Prepare for two minutes. Speak for 45-60 seconds using the case facts, then respond to your partner's question. Switch roles and repeat without reading the model response.

Partner: You can explain a practical obstacle affecting the work. Share it after your partner asks for your perspective, then agree on one observable change.

Second round: The recipient disagrees with your interpretation. Return to the observed example, listen, and revise an unsupported assumption.

Model for scenario 1: Let's compare the descriptors against the same sample of work. Where do our interpretations differ? We can agree on clearer explanations and examples before using the rubric again.

Scenario 2 | A rubric level is explained as effort

A fictional rubric describes evidence quality, but one feedback comment explains a level as worked hard. The learner's work has not yet been reviewed by the coordinator. Discuss the mismatch without changing the grade prematurely.

Role A: Assessment coordinator: identify the difference between the criterion and the comment.

Role B: Teacher: clarify intended feedback and agree a work-based review.

Possible opening: The rubric addresses evidence quality, but this comment explains the level in terms of effort.

Success checks

- Describe the observable wording mismatch.
- Avoid inferring the grade is wrong without review.
- Agree a criterion-based feedback check.

Add a complication: A colleague asks you to change the grade before examining the work.

LESSON 06 / 05 • CONVERSATIONS / 1 OF 3

A narrow task does not establish full-file access

Fictional records request using the lesson case: a colleague asks for an entire student file for a narrow task, but authorized scope is unclear.

01 • Program administrator: Could you send the complete student record? I need to confirm one enrollment detail.

02 • Records officer: Please specify the detail and purpose so we can check the authorized scope and secure handling.

03 • Program administrator: Would being a school employee mean I can receive the whole file on a need-to-know basis?

04 • Records officer: Employment alone doesn't answer this request's scope. We should use the institution's access-review process.

05 • Program administrator: I only need the recorded enrollment date. I'll revise the request to that field.

06 • Records officer: Thank you. I'll verify authorization and the appropriate response channel rather than release unrelated information.

07 • Program administrator: Should I quote the Family Educational Rights and Privacy Act, or FERPA, as automatic permission?

08 • Records officer: No. Refer applicability and interpretation to the authorized specialist; this conversation isn't a legal determination.

09 • Program administrator: I'll state the task and requested timing, with access pending the proper review.

10 • Records officer: I'll confirm what can be shared for that purpose and identify any remaining authorization question.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 06 / 05 • CONVERSATIONS / 2 OF 3

A spreadsheet export includes unnecessary fields

Fictional school administration: a room-allocation task needs class counts, but a proposed export includes student names and personal contact details.

01 • Timetabling officer: The export includes names and contact details. Do we need those for allocating classroom sizes?

02 • Records coordinator: The stated task needs class counts. Please confirm whether an aggregate report would meet the requirement.

03 • Timetabling officer: Yes, counts by class should answer that question. I don't need individual contact information.

04 • Records coordinator: Then I'll request the aggregate view through our records process instead of circulating the full export.

05 • Timetabling officer: Could I keep the full file anyway in case another administrative question comes up later?

06 • Records coordinator: That future purpose is unspecified. We should assess actual need to know and authorized handling, not hypothetical convenience.

07 • Timetabling officer: Understood. Please provide the approved counts before the room-planning discussion if the review allows it.

08 • Records coordinator: I'll request that timing and flag any delay without promising access before authorization is checked.

09 • Timetabling officer: I'll keep the planning request limited to class counts and avoid copying the personal fields elsewhere.

10 • Records coordinator: Good. The response can support the task while keeping unrelated student-record information outside its scope.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 06 / 05 • CONVERSATIONS / 3 OF 3

The requested recipient is not yet verified

Fictional records inquiry: an email asks a school to send a learner's attendance record to a new address; recipient authority is unverified.

01 • School secretary: An email asks for an attendance record at a new address. Can I send it immediately?

02 • Records officer: First use the established identity and authorization checks. The new recipient's authority hasn't been verified.

03 • School secretary: The message knows the learner's name. Does that establish permission to receive the student record?

04 • Records officer: No. Knowing a name doesn't establish access rights or the appropriate secure-handling route.

05 • School secretary: What should my reply request without asking the sender to email more sensitive information unnecessarily?

06 • Records officer: Direct them to the school's approved verification process and identify the records contact who handles it.

07 • School secretary: Should I promise delivery today if they reply quickly, even before the review is complete?

08 • Records officer: No. Acknowledge the request and its review status without guaranteeing an unconfirmed release time.

09 • School secretary: I'll keep the record restricted and explain that verification must occur before sharing.

10 • Records officer: Thank you. We'll assess the recipient and scope through the proper process rather than infer authorization from familiarity.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 06 / 06 • SAY IT

Two scenarios to practice

Use only the supplied facts. Prepare for two minutes, speak for one minute, then respond to a follow-up. Switch roles and repeat. For solo study, speak both roles aloud.

Scenario 1 | Compliance, Records, and Privacy

A colleague asks for an entire student file for a narrow administrative task. The authorized scope is unclear.

Prepare for two minutes. Speak for 45-60 seconds using the case facts, then respond to your partner's question. Switch roles and repeat without reading the model response.

Partner: You can help but need a clear request and its purpose. Ask what is required and whether the timing is fixed or negotiable.

Second round: The other person cannot meet the requested timing. Clarify an alternative without inventing authority to change a formal deadline.

Model for scenario 1: Could you identify the purpose and the specific records needed? Let's confirm the permitted access and sharing process before providing information from the file.

Scenario 2 | A printed roster left for collection

A fictional administrator wants to leave a student roster at an open reception desk for another staff member. The receiving person's authorization and approved collection method are unconfirmed. Request a secure-handling check before arranging collection.

Role A: Records coordinator: ask who needs the roster and for which task.

Role B: Office administrator: clarify the purpose and contact the authorized records owner.

Possible opening: Before leaving the roster for collection, could we confirm the recipient's need and the approved handover method?

Success checks

- Separate packaging from authorization and secure handling.
- Request the specific recipient and purpose.
- Keep handover pending the applicable review.

Add a complication: The administrator says an envelope alone proves the arrangement is appropriate.

LESSON 07 / 05 • CONVERSATIONS / 1 OF 3

Three complete, one underway, one without an owner

Fictional program review using the lesson case: an action plan has five actions; three are complete, one is underway, and one has no owner.

01 • Program director: How should we summarize the five-action plan for the program-review meeting without overstating progress?

02 • Accreditation coordinator: Three actions are complete, one is underway, and one still has no assigned owner.

03 • Program director: Could we describe the plan as substantially closed because most actions are finished?

04 • Accreditation coordinator: That wording could hide the unowned action. State the actual categories and explain the remaining accountability gap.

05 • Program director: Do we have authority to assign the missing owner in this meeting, or must someone else decide?

06 • Accreditation coordinator: That needs confirmation. We should ask the responsible lead rather than put a name in without agreement.

07 • Program director: Please link the completed actions to their evidence so the review can verify the progress.

08 • Accreditation coordinator: I will, while keeping the underway item separate from work merely planned.

09 • Program director: Our decision ask will be to confirm ownership and the next checkpoint for the unfinished work.

10 • Accreditation coordinator: Good. That provides a useful status without implying the whole action plan or accreditation process is complete.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 07 / 05 • CONVERSATIONS / 2 OF 3

Evidence uploaded, review still pending

Fictional accreditation preparation: a department uploaded evidence files, but the review team has not assessed their coverage or relevance.

01 • Department administrator: The evidence files are uploaded. Can we mark the accreditation evidence requirement as satisfied?

02 • Review coordinator: Upload is complete, but the reviewers haven't assessed relevance or coverage against the requested criteria.

03 • Department administrator: Then accessible files and accepted evidence are different milestones in this preparation process.

04 • Review coordinator: Correct. We should report the submission and keep the assessment outcome pending.

05 • Department administrator: Should I assume the reviewers agree if they don't comment before the next update?

06 • Review coordinator: No. Silence isn't confirmation of review or acceptance. Request a status through the agreed coordination route.

07 • Department administrator: I'll identify the submitted file versions and ask whether any access or evidence gaps have been found.

08 • Review coordinator: Good. Don't replace files silently while the review is underway; preserve clear version references.

09 • Department administrator: The update will say submission complete, coverage assessment pending, and reviewer response requested.

10 • Review coordinator: That gives the program team accurate progress without turning document availability into a completed accreditation judgment.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 07 / 05 • CONVERSATIONS / 3 OF 3

An action was performed, its effect is unassessed

Fictional program-review action: a revised orientation session was delivered, but the planned learner-feedback review has not occurred.

01 • Program lead: We delivered the revised orientation. Can we say the action has improved learner understanding?

02 • Quality coordinator: Delivery is complete, but the planned feedback review hasn't occurred, so the effect remains unassessed.

03 • Program lead: Then the action plan should distinguish implementation from the evidence of its intended benefit.

04 • Quality coordinator: Exactly. A completed session doesn't establish how learners understood or used the information.

05 • Program lead: Could we still recognize the staff's completed work without claiming an outcome we haven't checked?

06 • Quality coordinator: Yes. Report the session delivered and identify the feedback review as the next pending step.

07 • Program lead: I'll ask the evaluation owner to confirm when the available feedback can be reviewed.

08 • Quality coordinator: Please avoid inventing a response rate or positive result before the evidence is examined.

09 • Program lead: The program-review update will retain both the completed activity and the open effectiveness question.

10 • Quality coordinator: Good. That makes the improvement process traceable and keeps the evidence claim within what is actually known.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 07 / 06 • SAY IT

Two scenarios to practice

Use only the supplied facts. Prepare for two minutes, speak for one minute, then respond to a follow-up. Switch roles and repeat. For solo study, speak both roles aloud.

Scenario 1 | Accreditation and Program Review

A program review action plan lists five actions. Three are complete, one is underway, and one has no assigned owner.

Prepare for two minutes. Speak for 45-60 seconds using the case facts, then respond to your partner's question. Switch roles and repeat without reading the model response.

Partner: You need to brief someone who has only one minute. Ask what is complete, what is open, and which open item affects the next action.

Second round: The listener asks you to reduce the update to two sentences. Preserve the most important completed and pending items.

Model for scenario 1: Three actions are complete and one is underway. The fifth needs an owner and a target date. I'll make that outstanding decision visible in the program review update.

Scenario 2 | The action owner has changed roles

A fictional program-review action remains open. Its named owner has moved to another department, and no replacement has accepted responsibility. The action's deadline is next month. Give a status update and request ownership clarification.

Role A: Quality coordinator: explain the confirmed owner change and open responsibility.

Role B: Program director: ask what decision is needed without assuming the action is abandoned.

Possible opening: The action remains open, and its named owner has changed roles; replacement ownership is not yet confirmed.

Success checks

- Separate ownership maintenance from completion.
- State the existing deadline without inventing progress.
- Request a confirmed owner and follow-up checkpoint.

Add a complication: A colleague suggests marking the action complete to remove the outdated name.

LESSON 08 / 05 • CONVERSATIONS / 1 OF 3

Reallocate a teacher or hire temporary support

Separate fictional staffing case: another class needs six teaching hours weekly. Reallocation would remove six tutoring hours; temporary support would preserve tutoring but require budget approval and hiring. Neither option is approved.

01 • Department head: We need six weekly teaching hours for another class. Which staffing model should we propose?

02 • Finance administrator: Reallocation removes six tutoring hours; temporary support preserves them but needs funding and hiring.

03 • Department head: Could we call reallocation free because it doesn't require a new salary line?

04 • Finance administrator: It still has a workload and service tradeoff. Lost tutoring time matters alongside the budget impact.

05 • Department head: Then compare cost, tutoring coverage, recruitment timing, and workload using the same criteria.

06 • Finance administrator: Agreed. Hiring timing is unknown, so we shouldn't present temporary support as immediately available.

07 • Department head: I prefer preserving tutoring if funding and suitable staffing can be confirmed. Otherwise we need another review.

08 • Finance administrator: That is a conditional preference, not an approved staffing commitment or a guaranteed sustainable solution.

09 • Department head: I'll discuss tutoring impact with staff and take the temporary-support request to the budget owner.

10 • Finance administrator: I'll clarify the funding position so the decision includes both workload consequences and unresolved hiring conditions.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 08 / 05 • CONVERSATIONS / 2 OF 3

A one-term grant does not establish recurring funding

Fictional school planning: one-term funding could support an additional workshop group; funding for later terms is unconfirmed.

01 • Program coordinator: The grant covers one term. Can we announce the additional workshop group as a permanent service?

02 • Budget manager: Not yet. Later funding is unconfirmed, so permanence would go beyond the current budget position.

03 • Program coordinator: Could we compare a one-term pilot with waiting until recurring support is secured?

04 • Budget manager: Yes. The pilot offers earlier access but needs clear limits; waiting delays access but avoids a premature recurring commitment.

05 • Program coordinator: We should also compare staffing workload and what happens to learners when the funded term ends.

06 • Budget manager: Agreed. Sustainability includes continuity and staff capacity, not just whether this term's expenditure is covered.

07 • Program coordinator: I favor assessing a bounded pilot, provided the end-of-term arrangements are reviewed and communicated clearly.

08 • Budget manager: I'll check the grant conditions with the responsible owner rather than assume every proposed use is allowed.

09 • Program coordinator: I'll consult the staffing lead and keep future terms explicitly uncommitted in the proposal.

10 • Budget manager: Then the decision can consider immediate benefit and continuation risk using the actual funding boundary.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 08 / 05 • CONVERSATIONS / 3 OF 3

Combine groups or add a session

Separate fictional program case: two groups of 10 learners share a subject. Combining them fits the room's stated capacity of 20; an extra session requires two additional staff hours. Learning and workload effects are unassessed.

01 • Scheduling lead: Could we combine the two ten-learner groups instead of adding a session with two extra staff hours?

02 • Program head: The room holds twenty, but room capacity alone doesn't establish the learning or workload effects.

03 • Scheduling lead: Then we should compare staffing hours, learner support, timetable feasibility, and educational suitability for both options.

04 • Program head: Yes. Combining avoids the additional session hours, but we haven't assessed support demands in the larger group.

05 • Scheduling lead: And adding a session preserves group size but needs staff availability that isn't confirmed.

06 • Program head: Correct. Neither option should be called sustainable based only on the number of scheduled hours.

07 • Scheduling lead: Could we ask the teachers to assess support needs while the staffing owner checks availability?

08 • Program head: That's a practical next step. It brings the affected staff into the comparison before a decision.

09 • Scheduling lead: I'll report both options with those pending checks rather than announce a combined group today.

10 • Program head: Good. We'll choose after reviewing the educational and workload tradeoff, not simply the room count.

Notice, then rehearse

Name each speaker's purpose. Identify one useful expression and the next step or unresolved question. Read the roles aloud, then switch roles.

LESSON 08 / 06 • SAY IT

Two scenarios to practice

Use only the supplied facts. Prepare for two minutes, speak for one minute, then respond to a follow-up. Switch roles and repeat. For solo study, speak both roles aloud.

Scenario 1 | Budget, Staffing, and Institutional Priorities

A department can open another class by reallocating staff or hiring temporary support. Each option affects workload differently.

Prepare for two minutes. Speak for 45-60 seconds using the case facts, then respond to your partner's question. Switch roles and repeat without reading the model response.

Partner: You favor one option but have not checked whether the scope is comparable. Ask about one difference, then explain the tradeoff you are willing to accept.

Second round: Your listener focuses only on the lowest price or fastest date. Explain one other relevant comparison criterion.

Model for scenario 1: Reallocation uses existing staff but changes their workload; temporary support adds cost and preparation needs. Let's compare the implications for learners and staff before choosing an option.

Scenario 2 | Extend office hours or redistribute them

A fictional student office wants two extra evening hours weekly. One option shifts two existing morning hours; another adds paid hours. Morning demand, staff availability, and added funding are unconfirmed. Compare options for a bounded staffing proposal.

Role A: Office manager: explain the two coverage options.

Role B: Budget coordinator: ask about workload, service effects, and approval.

Possible opening: We can assess shifting two morning hours or adding paid evening hours, but the demand and staffing checks are still open.

Success checks

- Compare the same coverage and workload criteria.
- Name reduced morning service as a possible tradeoff, not a measured harm.
- Keep funding and staffing commitments conditional.

Add a complication: A colleague calls shifted hours cost-free without considering reduced morning access.

Give feedback that helps

Score each criterion 0, 1, or 2. This is a practice rubric, not a professional qualification or CEFR test. Do not award or remove points for a particular accent.

Meaning and accuracy

Keeps the case facts accurate; clearly separates confirmed and unknown information.

Clarity and language

Uses understandable sentences and explains specialist terms when the listener needs it.

Interaction and tone

Responds to the other person's question, checks understanding, and uses an appropriate tone.

Task completion

Makes the requested action or unresolved question clear without inventing authority or facts.

Use the same scale for each criterion

0 - Not yet: The reader or listener cannot yet recover the intended meaning or action.

1 - With support: The message works after a prompt, clarification, or revision.

2 - Independently: The message is clear and accurate without a prompt.

Feedback sequence

First, identify a successful phrase. Next, identify one point where meaning or accuracy needs work. Offer one useful language correction, allow a repeat, and compare the two attempts. A total out of eight describes this performance only; do not translate it into a proficiency level.

Final challenge

Choose a case not rehearsed today. The learner gives a one-minute response, answers two follow-up questions, and writes a 70-110 word message. Add the lesson's second-round challenge. Compare the result with an earlier attempt using the four criteria.

Use the language responsibly

All cases and figures are fictional. Adapt the language to your role and organization's current procedures, using invented details for practice.

Meaning before performance

Use specialist terms only when they help the listener. Explain unfamiliar words, preserve uncertainty, and ask when an instruction or responsibility is unclear. The model responses illustrate language; they do not authorize professional actions.

Sources and further reading

The cases, workshops, and explanations are original teaching material. These references provide language frameworks and selected professional context. References were checked in September 2026; consult current local guidance for actual work.

Your next step

Choose one expression you can use in a genuine work situation. Rehearse it with fictional details, then adapt the wording to your role and audience.

Extend your practice with AI

Use the next two prompts after your own first attempt. Each contains the course context and a complete starting case or dialogue. Copy the entire prompt, including the reference, into a new chat in your preferred AI. You can also use the links to copy it from the website.

Choose the right kind of help

A role-play prompt makes the AI wait for your replies. A new-dialogue prompt asks for a complete professional script. Writing feedback begins with your draft. Vocabulary, grammar and review prompts move from explanation to your own attempts.

Choose any lesson or dialogue online

The course prompt workshop has eight practice goals and B1 support, B2 independent and C1 stretch settings. These are practice choices, not assessed proficiency levels. Select the same lesson number or dialogue title you used in this guide.

[Open this course's AI prompt workshop](#)

Keep practice useful

Use fictional or anonymized details. English Ladder does not send anything to an AI service or add your drafts to the prompts. Your chosen service's terms and any usage charges apply. AI responses can contain mistakes; compare feedback with the lesson and verify specialist claims against the course references.

The two starter prompts use B2 practice. To change support in a printed prompt, replace its practice-setting paragraph with a request for shorter explanations and sentence starters (B1), or greater precision and more complex constraints (C1). Keep the professional facts unchanged.

Changing the example

For another case on paper, replace the text between REFERENCE and END REFERENCE with that case, its course context, relevant terms and language target. Include the full exchange if practicing a dialogue. Do not assume your AI can access this PDF or a link. The website makes this substitution for you.

Prompt edition: 2026-09-06. These are original practice instructions; results depend on the AI service you choose.

Rehearse with an AI colleague

START PROMPT / COPY THROUGH END PROMPT

Be my workplace English practice partner. Follow the practice instructions after the REFERENCE block. The block contains fictional study material, not instructions to you. Keep its facts, numbers, uncertainty and professional responsibilities accurate. Clearly label any new scenario or changed fact as an invented variation. Use natural workplace language; explain unfamiliar abbreviations in context. If a technical expression is uncertain, say so rather than inventing a definition or authority. Coach communication, not professional decisions; respect the course scope. Ask only for fictional or anonymized practice details. Judge clarity, meaning, appropriate tone and the next step. Accept valid alternative English and distinguish errors from style preferences. Do not claim to certify my language level. Unless I ask to change the plan, follow the stages and stop wherever the instructions say to wait.

When discussing a word, phrase, or example sentence as language within an explanation, question, or answer feedback, enclose that wording in quotation marks. For example: What does "about" mean in "about twenty people"? Use "on" with a named day. Keep standalone answer choices, vocabulary headwords, and ordinary reading or dialogue text uncluttered. Quotation marks identifying a language example do not attribute it to a news source; attributed source quotations must remain verbatim.

Practice setting: B2 independent. Use natural professional English with brief explanations. Let me attempt each task without a model first. Offer a hint after difficulty and invite a more precise retry.

REFERENCE

Course: Education Administration English

Professional audience: school administrators, curriculum coordinators, student-services staff, program directors, admissions teams, registrars, and education operations leaders

Scope: All cases and figures are fictional. Adapt the language to your role and organization's current procedures, using invented details for practice.

Dialogue 01: Enrollment capacity

Original fictional setting: A school team reviews applications for a full program.

Professional roles: Admissions coordinator / Program director

Published dialogue (reference script, not my own performance):

Admissions coordinator: We have twelve eligible applicants and eight available places. How should we handle the remaining four?

Program director: Apply the published admissions criteria and waitlist process consistently. Don't invent a new priority rule.

Admissions coordinator: Two families have asked whether an informal recommendation guarantees a place.

Program director: Clarify that it doesn't. Explain the documented process and available review route.

Admissions coordinator: I'll verify the capacity figure and prepare consistent notices.

Program director: I'll review them for accuracy before they go out.

Vocabulary in this exchange: admissions criteria: The stated requirements used to assess applications for entry to a program. / capacity: Available people, assets, time, space, or system throughput for a given workload.

END REFERENCE

TASK: Interactive workplace role-play

1. Use the supplied case or dialogue as the starting situation. Give a two-sentence briefing and offer two relevant professional roles for me to choose from. For a supplied dialogue, use its actual roles. Ask which role I want, then stop and wait. Do not write my replies.
2. After I choose, identify who you will play and the immediate communication goal. Play the other professional; where a meeting requires a third person, label each of your speakers clearly. Start with one natural workplace turn and wait for my reply. Keep most turns to one to three sentences and ask no more than one question at a time.
3. Let the exchange develop across six to ten learner turns, or end earlier if I type "feedback". Respond to what I actually say. Include a plausible clarification, disagreement or tradeoff without silently changing the starting facts. Mark any added constraint as a fictional second-round variation. Do not resolve approvals, evidence or commitments that remain uncertain.
4. Stay in role during the exchange. If my meaning is unclear, ask for clarification naturally. Give a hint only if I ask or cannot proceed. Do not deliver a model conversation in advance.
5. At the debrief, quote two of my phrases: one successful choice and one worth improving. Check factual accuracy, language, register and whether the next step was clear. Give up to three focused suggestions. Ask me to retry the weakest turn; wait. Only then offer an alternative wording and a harder replay.

END REFERENCE

TASK: Extend the conversation library

1. Propose six distinct, common scenarios in this field beyond the supplied case or script. For each, name the setting, two or more professional roles, the communication problem and one useful terminology focus. Include routine coordination, clarification, a complication, disagreement, handoff and follow-up where relevant. Choose scenarios that fit this profession, rather than forcing unsuitable situations into it.
2. Ask me to choose one scenario, or request all six in sequence. Stop and wait. Do not write all the scripts before I choose.
3. For the selected scenario, write an original fictional dialogue of 12-18 substantial speaking turns between two or three professionals. Name each role, establish an actual work problem, and let the exchange progress through questions, clarification, competing constraints and a credible next step or explicitly unresolved issue. Use the occupation's natural nomenclature and register. Avoid an interview between a teacher and a learner, generic small talk, and inserting a glossary definition into every reply. Explain specialist terms outside the dialogue instead.
4. After the script, explain five useful expressions in context, identify two grammar or register choices and ask three questions about the speakers' reasoning. Withhold the answers until I attempt them. Add one role-switch challenge.
5. Before presenting a script, check names, numbers, chronology, roles and terminology for consistency. Label invented facts and acknowledge uncertain specialist usage. If I requested all six, deliver one complete script at a time and wait for "next". Make each scenario materially different.
