

ENGLISH FOR WORK / SEPTEMBER 2026

Aviation English

Learner workbook

Work with realistic cases, develop your own response, and use the answer section after you have tried the tasks.

PRACTICE THAT TRANSFERS TO WORK

Read a realistic case. Find the right language. Speak, write, get feedback, and try again.

Eight lessons | Intermediate to advanced | Independent or classroom study

For aviation operations managers, airline staff, maintenance coordinators, safety teams, dispatchers, airport operations staff, ground handlers, and aviation-adjacent professionals.

Workplace coordination English. This course does not teach radiotelephony phraseology or certify aviation language proficiency; operational communication follows approved aviation procedures.

All scenarios, figures, and model responses are fictional teaching material. Use invented details in practice.

[Open this course on English Ladder](#)

Your course at a glance

Use the lesson numbers to match this document with the website and the other guides.

01 Safety Culture and Stop-Work Authority

Make a request with a clear action, purpose, and realistic timing.

02 Operations Control and Dispatch Coordination

Distinguish completed work from pending work and explain its impact.

03 Maintenance Deferrals and MEL Language

Clarify missing information before responding.

04 Irregular Operations and Passenger Communication

Acknowledge a communication problem and give a corrected message.

05 Ground Handling and Turnaround Performance

Give a handoff that the receiving person can confirm.

06 Security and Access Control

Make a request with a clear action, purpose, and realistic timing.

07 Incident Reporting and Investigation

Separate observations, assumptions, and conclusions.

08 Regulatory Audits and Readiness

Distinguish completed work from pending work and explain its impact.

Choose your pace

Quick practice: spend 15 minutes reading one case and saying a response. Full lesson: allow 45-60 minutes for language work, conversation, writing, and revision.

Level support

B1 learners can use the frames and a partner. B2 learners can try a response before reading the model. C1 learners can add the harder follow-up and reduce preparation time. These are teaching suggestions, not certified CEFR level ratings.

After practicing: open the AI prompt workshop, or use the prompts at the end of this guide.

LESSON 01 / READ AND NOTICE

Safety Culture and Stop-Work Authority

Make a request with a clear action, purpose, and realistic timing.

SITUATION

In a ground-operations language exercise, a team member sees a possible hazard near equipment. The local safety process applies.

1. Understand the situation

Identify two confirmed facts, one missing detail, and the person who needs your response. Do not fill gaps with invented facts.

2. Find the words

safety management system - An organized framework for managing safety responsibilities, risks, reporting, and improvement.

hazard - A potential source of harm.

stop work - A call or authorized action to pause work when a safety concern requires attention under local procedures.

reporting culture - Shared expectations that encourage people to raise concerns and report relevant events.

3. Notice the language

State the action and the information needed. Explain why it matters and specify a deadline only when one is given or agreed. 'Could you' is polite; repeated apologies can obscure a legitimate request. Urgent situations may require a direct request.

Could you provide ... so that ...?

Please confirm ... by [agreed time].

If that timing is not possible, please let me know

Improve this sentence: Please revert soonest with the necessary.

LESSON 01 / PRACTICE AND PRODUCE

Ask for an actionable next step

4. Check the language

1. What does 'Please send it by Thursday' normally mean?
 - A. Keep sending it regularly until Thursday.
 - B. Send it no later than Thursday.
 - C. Send it on Thursday, but not earlier.
2. Which request gives the recipient enough detail to act?
 - A. Could you confirm the document version needed for the review?
 - B. Could you confirm that the review is important?
 - C. Could you confirm that you received my earlier message?

5. Say it

Prepare for two minutes. Speak for 45-60 seconds using the case facts, then respond to your partner's question. Switch roles and repeat without reading the model response.

Partner: You can help but need a clear request and its purpose. Ask what is required and whether the timing is fixed or negotiable.

6. Write it

Write a 70-110 word message for the person who needs to act on this case. State the purpose, preserve the relevant facts, and make the next action or unresolved question clear. Use a subject line and an appropriate opening. Do not invent a deadline, finding, or approval.

Check: facts accurate | meaning clear | tone appropriate | next action or question explicit

After revising your response: open the AI extension for feedback on your own draft.

LESSON 02 / READ AND NOTICE

Operations Control and Dispatch Coordination

Distinguish completed work from pending work and explain its impact.

SITUATION

An operations update has a provisional aircraft assignment and an unresolved crew-status question. A draft message calls the plan confirmed.

1. Understand the situation

Identify two confirmed facts, one missing detail, and the person who needs your response. Do not fill gaps with invented facts.

2. Find the words

dispatch - Coordinating and assigning resources for an operational task.

crew legality - Whether a crew assignment meets the applicable duty, rest, and other operating requirements.

aircraft routing - The planned sequence of flights assigned to an aircraft.

delay code - A standardized category used to record the reason for an operational delay.

3. Notice the language

Lead with the current state, then the important change or open item. Use completed-action language only for completed work. Add a next update point when it is known; do not invent a date to make the message sound complete.

We have completed ...; ... remains open.

As of ..., the status is

The next update will cover

Improve this sentence: Everything is progressing well.

LESSON 02 / PRACTICE AND PRODUCE

Give a useful status update

4. Check the language

1. Which sentence says a review is finished?
 - A. The team has completed the review.
 - B. The team is completing the review.
 - C. The team plans to complete the review.
2. Which update distinguishes a plan from a confirmed fact?
 - A. Delivery is confirmed for Friday because we planned it.
 - B. The delivery plan proves that arrival will be Friday.
 - C. Delivery is planned for Friday; the carrier has not confirmed it.

5. Say it

Prepare for two minutes. Speak for 45-60 seconds using the case facts, then respond to your partner's question. Switch roles and repeat without reading the model response.

Partner: You need to brief someone who has only one minute. Ask what is complete, what is open, and which open item affects the next action.

6. Write it

Write a 70-110 word message for the person who needs to act on this case. State the purpose, preserve the relevant facts, and make the next action or unresolved question clear. Use a subject line and an appropriate opening. Do not invent a deadline, finding, or approval.

Check: facts accurate | meaning clear | tone appropriate | next action or question explicit

After revising your response: open the AI extension for feedback on your own draft.

LESSON 03 / READ AND NOTICE

Maintenance Deferrals and MEL Language

Clarify missing information before responding.

SITUATION

A maintenance coordination note mentions a deferral but omits the relevant reference and authorized status.

1. Understand the situation

Identify two confirmed facts, one missing detail, and the person who needs your response. Do not fill gaps with invented facts.

2. Find the words

MEL - Minimum equipment list identifying aircraft equipment that may be inoperative under specified conditions while the aircraft remains dispatchable.

logbook - A chronological record of operations, maintenance, or other required events.

deferred maintenance - Maintenance postponed under the applicable authorized conditions and process.

airworthiness - Condition in which an aircraft conforms to approved design and is safe for operation under applicable rules.

3. Notice the language

Name the exact word, fact, or requirement you need clarified. Ask one focused question at a time. Repeat your understanding and give the other person a chance to correct it.

When you say ..., do you mean ...?

Could you clarify which ...?

So, my understanding is Is that right?

Improve this sentence: Could you explain what does this mean?

LESSON 03 / PRACTICE AND PRODUCE

Ask a precise question

4. Check the language

1. Which indirect question has the usual word order?
 - A. Could you confirm when does the review start?
 - B. Could you confirm when starts the review?
 - C. Could you confirm when the review starts?
2. Someone says the report is 'ready.' Which question best clarifies its approval status?
 - A. Who will present the report at the meeting?
 - B. Has the report been approved, or is it ready for review?
 - C. Can you send the report to me this afternoon?

5. Say it

Prepare for two minutes. Speak for 45-60 seconds using the case facts, then respond to your partner's question. Switch roles and repeat without reading the model response.

Partner: You need to know exactly what information is missing. Give one answer only after your partner asks a focused question; then ask them to confirm their understanding.

6. Write it

Write a 70-110 word message for the person who needs to act on this case. State the purpose, preserve the relevant facts, and make the next action or unresolved question clear. Use a subject line and an appropriate opening. Do not invent a deadline, finding, or approval.

Check: facts accurate | meaning clear | tone appropriate | next action or question explicit

After revising your response: open the AI extension for feedback on your own draft.

LESSON 04 / READ AND NOTICE

Irregular Operations and Passenger Communication

Acknowledge a communication problem and give a corrected message.

SITUATION

Passengers receive conflicting messages about a delay. The next departure estimate has not been confirmed.

1. Understand the situation

Identify two confirmed facts, one missing detail, and the person who needs your response. Do not fill gaps with invented facts.

2. Find the words

IROP - Irregular operations: disruptions that affect an airline's planned service.

reaccommodation - Arranging alternative travel for passengers whose original journey is disrupted.

misconnect - A missed onward flight connection.

weather delay - An operational delay attributed to weather conditions under the relevant reporting process.

3. Notice the language

Name what was unclear or wrong, acknowledge its effect, and correct it. A brief apology can help, followed by a practical next step. Avoid explaining away the other person's reaction or promising an outcome you cannot control.

My earlier message did not make ... clear.

I'm sorry for The correct information is

Let me check that the revised explanation addresses

Improve this sentence: I'm sorry if you failed to understand.

LESSON 04 / PRACTICE AND PRODUCE

Repair a misunderstanding

4. Check the language

1. Which apology takes responsibility for unclear wording?
 - A. I'm sorry we could not meet the original date.
 - B. I'm sorry my earlier wording was unclear.
 - C. I'm sorry the process took longer than expected.
2. What should follow an apology for an incorrect date?
 - A. The corrected date and the current confirmation status.
 - B. A longer explanation that never states the correct date.
 - C. A new guaranteed date even if it is unverified.

5. Say it

Prepare for two minutes. Speak for 45-60 seconds using the case facts, then respond to your partner's question. Switch roles and repeat without reading the model response.

Partner: You are frustrated because an earlier message created an expectation. Explain that expectation. Ask your partner to distinguish the correction from anything still uncertain.

6. Write it

Write a 70-110 word message for the person who needs to act on this case. State the purpose, preserve the relevant facts, and make the next action or unresolved question clear. Use a subject line and an appropriate opening. Do not invent a deadline, finding, or approval.

Check: facts accurate | meaning clear | tone appropriate | next action or question explicit

After revising your response: open the AI extension for feedback on your own draft.

LESSON 05 / READ AND NOTICE

Ground Handling and Turnaround Performance

Give a handoff that the receiving person can confirm.

SITUATION

A turnaround handoff identifies an open ground-service task but does not name who accepted it.

1. Understand the situation

Identify two confirmed facts, one missing detail, and the person who needs your response. Do not fill gaps with invented facts.

2. Find the words

turnaround - The ground period and activities between an aircraft's arrival and next departure.

ground handling - Services supporting aircraft and passengers on the ground between flights.

load sheet - An aircraft loading record used under the operator's approved weight-and-balance procedures.

ramp safety - Safe coordination of work in aircraft ground-service areas under approved procedures.

3. Notice the language

State the current situation, relevant background, open task, and receiving role. Ask for acknowledgment or repeat-back of the critical item. Sending a message and transferring responsibility are not always the same thing.

The current status is ...; the outstanding item is

The record shows

Please confirm who has accepted

Improve this sentence: Someone should follow up on this.

LESSON 05 / PRACTICE AND PRODUCE

Transfer information and responsibility

4. Check the language

1. Which sentence checks that responsibility has been accepted?
 - A. Please confirm who will complete the outstanding check.
 - B. I mentioned the check in my earlier email.
 - C. The check appears somewhere in the notes.
2. Which response best checks a critical handoff detail?
 - A. I assume all results are final, so we can finish.
 - B. I saw the message, so no clarification is needed.
 - C. So the result is pending and your team will follow up; is that correct?

5. Say it

Prepare for two minutes. Speak for 45-60 seconds using the case facts, then respond to your partner's question. Switch roles and repeat without reading the model response.

Partner: You are taking over the work. Ask what remains open and repeat back the critical status or responsibility. Point out one detail that would be unsafe or misleading to assume.

6. Write it

Write a 70-110 word message for the person who needs to act on this case. State the purpose, preserve the relevant facts, and make the next action or unresolved question clear. Use a subject line and an appropriate opening. Do not invent a deadline, finding, or approval.

Check: facts accurate | meaning clear | tone appropriate | next action or question explicit

After revising your response: open the AI extension for feedback on your own draft.

LESSON 06 / READ AND NOTICE

Security and Access Control

Make a request with a clear action, purpose, and realistic timing.

SITUATION

A visitor asks a staff member to bypass an access check because a meeting is running late.

1. Understand the situation

Identify two confirmed facts, one missing detail, and the person who needs your response. Do not fill gaps with invented facts.

2. Find the words

secure area - A location where entry and activities are controlled under defined security requirements.

badge - An identification credential used as part of an organization's access process.

escort - An authorized person accompanying someone in an area where access is controlled.

audit - A systematic examination of evidence against defined requirements or criteria.

3. Notice the language

State the action and the information needed. Explain why it matters and specify a deadline only when one is given or agreed. 'Could you' is polite; repeated apologies can obscure a legitimate request. Urgent situations may require a direct request.

Could you provide ... so that ...?

Please confirm ... by [agreed time].

If that timing is not possible, please let me know

Improve this sentence: Please revert soonest with the necessary.

LESSON 06 / PRACTICE AND PRODUCE

Ask for an actionable next step

4. Check the language

1. What does 'Please send it by Thursday' normally mean?
 - A. Send it on Thursday, but not earlier.
 - B. Keep sending it regularly until Thursday.
 - C. Send it no later than Thursday.
2. Which request gives the recipient enough detail to act?
 - A. Could you confirm that you received my earlier message?
 - B. Could you confirm the document version needed for the review?
 - C. Could you confirm that the review is important?

5. Say it

Prepare for two minutes. Speak for 45-60 seconds using the case facts, then respond to your partner's question. Switch roles and repeat without reading the model response.

Partner: You can help but need a clear request and its purpose. Ask what is required and whether the timing is fixed or negotiable.

6. Write it

Write a 70-110 word message for the person who needs to act on this case. State the purpose, preserve the relevant facts, and make the next action or unresolved question clear. Use a subject line and an appropriate opening. Do not invent a deadline, finding, or approval.

Check: facts accurate | meaning clear | tone appropriate | next action or question explicit

After revising your response: open the AI extension for feedback on your own draft.

LESSON 07 / READ AND NOTICE

Incident Reporting and Investigation

Separate observations, assumptions, and conclusions.

SITUATION

An initial incident note says equipment damage was caused by a specific action, although the review is incomplete.

1. Understand the situation

Identify two confirmed facts, one missing detail, and the person who needs your response. Do not fill gaps with invented facts.

2. Find the words

incident report - A structured record of an event, available facts, and relevant follow-up information.

damage assessment - An examination of what was damaged and the extent of the damage.

root cause - Underlying reason a problem occurred, not merely the visible symptom.

corrective action - Action taken to fix a current problem and prevent recurrence.

3. Notice the language

Say what the evidence shows, identify what is still unknown, and limit the conclusion to that evidence. Words such as 'may', 'suggests', and 'in this sample' are useful when the uncertainty is real. Do not soften an urgent, verified safety concern.

The available evidence shows

This may indicate ..., but

We have not yet established whether

Improve this sentence: The pilot proves this will work everywhere.

LESSON 07 / PRACTICE AND PRODUCE

Match certainty to evidence

4. Check the language

1. Which sentence preserves uncertainty about an unconfirmed cause?
 - A. The change definitely caused the delay.
 - B. The change may have contributed to the delay.
 - C. The change must have caused the delay.
2. A result comes from a small pilot in one location. Which phrase accurately limits the claim?
 - A. In this pilot, the observed result was ...
 - B. In similar locations, we can now expect the same result ...
 - C. Across the service, the observed result was ...

5. Say it

Prepare for two minutes. Speak for 45-60 seconds using the case facts, then respond to your partner's question. Switch roles and repeat without reading the model response.

Partner: You need to tell a colleague what is known. Ask which part is confirmed and which part is an assumption. Challenge one statement that sounds more certain than the case supports.

6. Write it

Write a 70-110 word message for the person who needs to act on this case. State the purpose, preserve the relevant facts, and make the next action or unresolved question clear. Use a subject line and an appropriate opening. Do not invent a deadline, finding, or approval.

Check: facts accurate | meaning clear | tone appropriate | next action or question explicit

After revising your response: open the AI extension for feedback on your own draft.

LESSON 08 / READ AND NOTICE

Regulatory Audits and Readiness

Distinguish completed work from pending work and explain its impact.

SITUATION

An audit preparation list has current records for most staff but three records still need verification.

1. Understand the situation

Identify two confirmed facts, one missing detail, and the person who needs your response. Do not fill gaps with invented facts.

2. Find the words

audit - A systematic examination of evidence against defined requirements or criteria.

training record - A record of completed instruction, participation, or assessed competence.

compliance - Conformance with laws, regulations, standards, policies, contracts, or approved procedures.

corrective action - Action taken to fix a current problem and prevent recurrence.

3. Notice the language

Lead with the current state, then the important change or open item. Use completed-action language only for completed work. Add a next update point when it is known; do not invent a date to make the message sound complete.

We have completed ...; ... remains open.

As of ..., the status is

The next update will cover

Improve this sentence: Everything is progressing well.

LESSON 08 / PRACTICE AND PRODUCE

Give a useful status update

4. Check the language

1. Which sentence says a review is finished?
 - A. The team has completed the review.
 - B. The team is completing the review.
 - C. The team plans to complete the review.
2. Which update distinguishes a plan from a confirmed fact?
 - A. Delivery is confirmed for Friday because we planned it.
 - B. The delivery plan proves that arrival will be Friday.
 - C. Delivery is planned for Friday; the carrier has not confirmed it.

5. Say it

Prepare for two minutes. Speak for 45-60 seconds using the case facts, then respond to your partner's question. Switch roles and repeat without reading the model response.

Partner: You need to brief someone who has only one minute. Ask what is complete, what is open, and which open item affects the next action.

6. Write it

Write a 70-110 word message for the person who needs to act on this case. State the purpose, preserve the relevant facts, and make the next action or unresolved question clear. Use a subject line and an appropriate opening. Do not invent a deadline, finding, or approval.

Check: facts accurate | meaning clear | tone appropriate | next action or question explicit

After revising your response: open the AI extension for feedback on your own draft.

Answer workshop

Try the tasks first. The model is one acceptable response, not a script to memorize. Your written version needs a subject line, an opening, and appropriate context. Assess it using the four criteria at the end.

01 | Safety Culture and Stop-Work Authority

Editing example: Could you send the missing document and confirm when it will be available?

The revision names the document and requested response. It avoids expressions that may be unfamiliar or ambiguous for an international audience.

Check 1: B - Send it no later than Thursday.

A: This interprets a deadline as a continuing activity, which would use "until".

B: 'By' sets the latest point, while 'after' refers to a later time.

C: "By Thursday" permits earlier delivery; it is not restricted to that day.

Check 2: A - Could you confirm the document version needed for the review?

A: The requested action and information are explicit.

B: This checks importance rather than identifying the needed document version.

C: This checks receipt, not which version is required for the review.

Model response: I see a possible hazard near the equipment. Please alert the responsible person and follow the local safety process. I'll state the location and observation clearly so the concern can be assessed.

Case check: underline the confirmed information and circle a limitation, question, or next step in the response.

02 | Operations Control and Dispatch Coordination

Editing example: Three checks are complete; two remain open and are being reviewed.

The revision gives observable progress. A positive label alone does not tell the reader what is complete or still needed.

Check 1: A - The team has completed the review.

A: 'Has completed' states that the action is finished.

B: 'Is completing' presents the work as in progress.

C: 'Plans to complete' describes an intention, not completion.

Check 2: C - Delivery is planned for Friday; the carrier has not confirmed it.

A: A plan does not establish carrier confirmation.

B: A plan cannot prove a future arrival time.

C: This explicitly labels the date as planned and identifies the missing confirmation.

Model response: The aircraft assignment is provisional, and crew status still needs confirmation. I'll distinguish those open items from confirmed information in the operations update.

Case check: underline the confirmed information and circle a limitation, question, or next step in the response.

03 | Maintenance Deferrals and MEL Language

Editing example: Could you explain what this means?

After an introductory phrase such as 'Could you explain', the embedded question uses statement word order: "what this means".

Check 1: C - Could you confirm when the review starts?

A: Remove 'does' and use statement word order after 'confirm'.

B: Place the subject 'the review' before 'starts'.

C: The embedded question uses subject then verb: "the review starts".

Check 2: B - Has the report been approved, or is it ready for review?

A: This asks about the presenter, not the report's approval status.

B: This question distinguishes two meanings of 'ready' that affect the next action.

C: This asks about delivery timing, not whether approval has happened.

Model response: Could you confirm the reference and current authorized status with maintenance control? I need accurate coordination information; I cannot infer airworthiness from an incomplete note.

Case check: underline the confirmed information and circle a limitation, question, or next step in the response.

04 | Irregular Operations and Passenger Communication

Editing example: I'm sorry my message did not explain the timing clearly.

The revision takes responsibility for the message without blaming the listener. It identifies what needs to be corrected.

Check 1: B - I'm sorry my earlier wording was unclear.

A: This acknowledges a missed date, not the communication problem in the question.

B: This acknowledges the speaker's contribution to the problem.

C: This acknowledges duration, but does not take responsibility for the unclear wording.

Check 2: A - The corrected date and the current confirmation status.

A: A repair needs usable corrected information, including any uncertainty.

B: The reader still lacks the information they need.

C: An unsupported new promise can create a second misunderstanding.

Model response: I'm sorry for the conflicting information. We are waiting for a confirmed update from the responsible team. I'll share the next verified information and explain the available assistance through our process.

Case check: underline the confirmed information and circle a limitation, question, or next step in the response.

05 | Ground Handling and Turnaround Performance

Editing example: Please confirm which team has accepted the follow-up task.

The revised sentence asks for an identifiable receiving team instead of leaving responsibility with an unspecified 'someone'.

Check 1: A - Please confirm who will complete the outstanding check.

A: It asks for an identifiable person or team responsible for the task.

B: Mentioning a task does not show that anyone accepted it.

C: A written record alone does not identify who will act.

Check 2: C - So the result is pending and your team will follow up; is that correct?

A: It changes pending information into a final result.

B: Receiving a message is not the same as confirming its meaning.

C: This repeats the status and responsibility and invites correction.

Model response: This ground-service task is still open. Please confirm which team has accepted it and record the status in the agreed coordination channel before we describe the handoff as complete.

Case check: underline the confirmed information and circle a limitation, question, or next step in the response.

06 | Security and Access Control

Editing example: Could you send the missing document and confirm when it will be available?

The revision names the document and requested response. It avoids expressions that may be unfamiliar or ambiguous for an international audience.

Check 1: C - Send it no later than Thursday.

A: "By Thursday" permits earlier delivery; it is not restricted to that day.

B: This interprets a deadline as a continuing activity, which would use "until".

C: 'By' sets the latest point, while 'after' refers to a later time.

Check 2: B - Could you confirm the document version needed for the review?

A: This checks receipt, not which version is required for the review.

B: The requested action and information are explicit.

C: This checks importance rather than identifying the needed document version.

Model response: I understand the meeting is urgent, but access still needs to follow the approved process. Let me contact the authorized team to arrange the appropriate check and escort if required.

Case check: underline the confirmed information and circle a limitation, question, or next step in the response.

07 | Incident Reporting and Investigation

Editing example: The pilot worked in the tested setting; performance elsewhere remains untested.

The revision states the finding and its scope. It avoids turning limited evidence into a universal claim.

Check 1: B - The change may have contributed to the delay.

A: 'Definitely' presents the cause as certain.

B: 'May have contributed' presents a possibility without claiming the cause is established.

C: 'Must have' expresses a strong inference that the evidence may not support.

Check 2: A - In this pilot, the observed result was ...

A: This locates the finding in the setting actually studied.

B: Similarity alone does not establish that the result will transfer.

C: A pilot in one location does not establish a service-wide observation.

Model response: The damage has been observed; its cause is still under review. I'll record the known sequence and distinguish witness reports from confirmed findings in the note.

Case check: underline the confirmed information and circle a limitation, question, or next step in the response.

08 | Regulatory Audits and Readiness

Editing example: Three checks are complete; two remain open and are being reviewed.

The revision gives observable progress. A positive label alone does not tell the reader what is complete or still needed.

Check 1: A - The team has completed the review.

A: 'Has completed' states that the action is finished.

B: 'Is completing' presents the work as in progress.

C: 'Plans to complete' describes an intention, not completion.

Check 2: C - Delivery is planned for Friday; the carrier has not confirmed it.

A: A plan does not establish carrier confirmation.

B: A plan cannot prove a future arrival time.

C: This explicitly labels the date as planned and identifies the missing confirmation.

Model response: Most records have been checked; three remain unverified. I'll list those items, their owners, and the follow-up status so the audit update shows the outstanding work clearly.

Case check: underline the confirmed information and circle a limitation, question, or next step in the response.

Give feedback that helps

Score each criterion 0, 1, or 2. This is a practice rubric, not a professional qualification or CEFR test. Do not award or remove points for a particular accent.

Meaning and accuracy

Keeps the case facts accurate; clearly separates confirmed and unknown information.

Clarity and language

Uses understandable sentences and explains specialist terms when the listener needs it.

Interaction and tone

Responds to the other person's question, checks understanding, and uses an appropriate tone.

Task completion

Makes the requested action or unresolved question clear without inventing authority or facts.

Use the same scale for each criterion

0 - Not yet: The reader or listener cannot yet recover the intended meaning or action.

1 - With support: The message works after a prompt, clarification, or revision.

2 - Independently: The message is clear and accurate without a prompt.

Feedback sequence

First, identify a successful phrase. Next, identify one point where meaning or accuracy needs work. Offer one useful language correction, allow a repeat, and compare the two attempts. A total out of eight describes this performance only; do not translate it into a proficiency level.

Final challenge

Choose a case not rehearsed today. The learner gives a one-minute response, answers two follow-up questions, and writes a 70-110 word message. Add the lesson's second-round challenge. Compare the result with an earlier attempt using the four criteria.

Use the language responsibly

Workplace coordination English. This course does not teach radiotelephony phraseology or certify aviation language proficiency; operational communication follows approved aviation procedures.

Meaning before performance

Use specialist terms only when they help the listener. Explain unfamiliar words, preserve uncertainty, and ask when an instruction or responsibility is unclear. The model responses illustrate language; they do not authorize professional actions.

Sources and further reading

The cases, workshops, and explanations are original teaching material. These references provide language frameworks and selected professional context. References were checked in September 2026; consult current local guidance for actual work.

Digital.gov: plain-language guidance

<https://digital.gov/guides/plain-language>

Council of Europe: CEFR descriptors

<https://www.coe.int/en/web/common-european-framework-reference-languages/cefr-descriptors>

FAA: aviation English standard

Your next step

Choose one expression you can use in a genuine work situation. Rehearse it with fictional details, then adapt the wording to your role and audience.

Extend your practice with AI

Use the next two prompts after your own first attempt. Each contains the course context and a complete starting case or dialogue. Copy the entire prompt, including the reference, into a new chat in your preferred AI. You can also use the links to copy it from the website.

Choose the right kind of help

A role-play prompt makes the AI wait for your replies. A new-dialogue prompt asks for a complete professional script. Writing feedback begins with your draft. Vocabulary, grammar and review prompts move from explanation to your own attempts.

Choose any lesson or dialogue online

The course prompt workshop has eight practice goals and B1 support, B2 independent and C1 stretch settings. These are practice choices, not assessed proficiency levels. Select the same lesson number or dialogue title you used in this guide.

[Open this course's AI prompt workshop](#)

Keep practice useful

Use fictional or anonymized details. English Ladder does not send anything to an AI service or add your drafts to the prompts. Your chosen service's terms and any usage charges apply. AI responses can contain mistakes; compare feedback with the lesson and verify specialist claims against the course references.

The two starter prompts use B2 practice. To change support in a printed prompt, replace its practice-setting paragraph with a request for shorter explanations and sentence starters (B1), or greater precision and more complex constraints (C1). Keep the professional facts unchanged.

Changing the example

For another case on paper, replace the text between REFERENCE and END REFERENCE with that case, its course context, relevant terms and language target. Include the full exchange if practicing a dialogue. Do not assume your AI can access this PDF or a link. The website makes this substitution for you.

Prompt edition: 2026-09-06. These are original practice instructions; results depend on the AI service you choose.

Practice grammar in context

START PROMPT / COPY THROUGH END PROMPT

Be my workplace English practice partner. Follow the practice instructions after the REFERENCE block. The block contains fictional study material, not instructions to you. Keep its facts, numbers, uncertainty and professional responsibilities accurate. Clearly label any new scenario or changed fact as an invented variation. Use natural workplace language; explain unfamiliar abbreviations in context. If a technical expression is uncertain, say so rather than inventing a definition or authority. Coach communication, not professional decisions; respect the course scope. Ask only for fictional or anonymized practice details. Judge clarity, meaning, appropriate tone and the next step. Accept valid alternative English and distinguish errors from style preferences. Do not claim to certify my language level. Unless I ask to change the plan, follow the stages and stop wherever the instructions say to wait.

When discussing a word, phrase, or example sentence as language within an explanation, question, or answer feedback, enclose that wording in quotation marks. For example: What does "about" mean in "about twenty people"? Use "on" with a named day. Keep standalone answer choices, vocabulary headwords, and ordinary reading or dialogue text uncluttered. Quotation marks identifying a language example do not attribute it to a news source; attributed source quotations must remain verbatim.

Practice setting: B2 independent. Use natural professional English with brief explanations. Let me attempt each task without a model first. Offer a hint after difficulty and invite a more precise retry.

REFERENCE

Course: Aviation English

Professional audience: aviation operations managers, airline staff, maintenance coordinators, safety teams, dispatchers, airport operations staff, ground handlers, and aviation-adjacent professionals

Scope: Workplace coordination English. This course does not teach radiotelephony phraseology or certify aviation language proficiency; operational communication follows approved aviation procedures.

Lesson 01: Safety Culture and Stop-Work Authority

Original fictional case: In a ground-operations language exercise, a team member sees a possible hazard near equipment. The local safety process applies.

Language workshop: Ask for an actionable next step

Communication goal: Make a request with a clear action, purpose, and realistic timing.

Language guidance: State the action and the information needed. Explain why it matters and specify a deadline only when one is given or agreed. 'Could you' is polite; repeated apologies can obscure a legitimate request. Urgent situations may require a direct request.

Useful frames (complete the gaps with case facts): Could you provide ... so that ...? / Please confirm ... by [agreed time]. / If that timing is not possible, please let me know ...

Vocabulary: safety management system: An organized framework for managing safety responsibilities, risks, reporting, and improvement. / hazard: A potential source of harm. / stop work: A call or authorized action to pause work when a safety concern requires attention under local procedures. / reporting culture: Shared expectations that encourage people to raise concerns and report relevant events.

Speaking task: Prepare for two minutes. Speak for 45-60 seconds using the case facts, then respond to your partner's question. Switch roles and repeat without reading the model response.

Partner: You can help but need a clear request and its purpose. Ask what is required and whether the timing is fixed or negotiable.

Writing task: Write a 70-110 word message for the person who needs to act on this case. State the purpose, preserve the relevant facts, and make the next action or unresolved question clear. Use a subject line and an appropriate opening. Do not invent a deadline, finding, or approval.

Optional second-round challenge: The other person cannot meet the requested timing. Clarify an alternative without inventing authority to change a formal deadline.

Model for comparison AFTER my attempt, not a response to give me first: I see a possible hazard near the equipment. Please alert the responsible person and follow the local safety process. I'll state the location and observation clearly so the concern can be assessed.

END REFERENCE

TASK: Grammar that changes the meaning

1. For a lesson, use its language workshop as the focus. For a dialogue, quote one actual sentence and select one useful grammar feature from it, such as question word order, tense, modality, conditionals or clause linking. Explain in no more than 90 words how this feature helps the speakers do their work. Keep the grammar target narrow.
2. Give two short contrasting sentences using this workplace context. Explain the difference in time, certainty, condition or politeness. Label invented examples and preserve the distinction between possible, planned and confirmed events. Describe context-dependent choices as choices, not universal rules.
3. Give me one editing or sentence-building task using a known case fact. Do not copy the supplied editing example or reveal its answer. Ask me to explain my intended meaning. Stop and wait.
4. After I answer, quote my wording, identify at most two issues, and give a brief explanation and one hint. Ask me to revise before offering a full corrected version. Then accept any accurate, natural alternative that serves the purpose.
5. Continue with two new tasks, one at a time: first guided, then an original response without a sentence frame. End with a two-sentence workplace message using the target feature and a compact self-check. Do not replace this sequence with a worksheet and answer key.

END REFERENCE

TASK: Coach my workplace writing

1. Ask me to paste my own fictional or anonymized draft and identify its reader and purpose. If the reference gives a writing task, mention that task as the default. If it is a dialogue, suggest a brief follow-up message that records its outcome and open questions. Stop and wait. Do not write the message for me first.
2. Once I supply the draft, check it against the reference. If an ambiguity changes the meaning, ask one focused question before rewriting. Do not assume that the draft is correct evidence for a new deadline, approval, diagnosis, cost or commitment.
3. Give feedback in three parts: one effective phrase with a reason; up to three priority improvements, quoting my words; and one short revision task for me. Prioritize incorrect facts or unclear action before minor grammar. For each language correction, explain why it matters to this reader. Label optional stylistic alternatives separately and preserve my level of certainty and intended politeness.
4. Stop and wait for my revision. Then compare the two attempts, identify an improvement and offer one edited version that preserves my voice and purpose. Keep the requested length; if none is specified, use 70-110 words. Explain any meaningful change rather than silently making the message stronger or more certain.
5. Close with one phrase worth reusing and a short transfer task for a different fictional reader. Wait for my attempt before providing another model.
