

ENGLISH FOR WORK / SEPTEMBER 2026

Nonprofit and NGO English

Conversation lab

8 complete workplace dialogues, followed by eight additional role-play cases. Study the exchanges, then make the conversation your own.

PRACTICE THAT TRANSFERS TO WORK

Read a realistic case. Find the right language. Speak, write, get feedback, and try again.

Eight lessons | Intermediate to advanced | Independent or classroom study

For nonprofit program managers, NGO staff, grant writers, development officers, monitoring and evaluation teams, field coordinators, volunteer managers, and nonprofit executives.

All cases and figures are fictional. Adapt the language to your role and organization's current procedures, using invented details for practice.

All scenarios, figures, and model responses are fictional teaching material. Use invented details in practice.

[Open this course on English Ladder](#)

Inside this conversation lab

Original fictional training conversations in professional English. These are realistic scripts, not transcripts of actual people. The professional roles are the speaker labels; all figures, incidents, and organizations are invented.

01 Theory of change

02 Restricted grant funds

03 Output versus outcome

04 Field partner coordination

05 Safeguarding referral

06 Volunteer boundaries

07 Public messaging review

08 Board sustainability discussion

Then try eight independent role-play cases, followed by feedback criteria and references.

Read it. Hear it. Make it yours.

1. Read the setting. Identify the roles, the immediate problem, and what each speaker needs.
2. Read the whole conversation aloud with a partner. In a group, give a third person the observer role. For three-speaker scripts, assign each professional a separate voice.
3. Notice how the speakers ask a specific question, qualify a claim, disagree, explain a technical point, or agree on a next step. Underline language you would actually use.
4. Cover the script. Recreate the exchange using the situation and professional roles. Keep the meaning, but change the wording.
5. Switch roles and introduce a complication: a missing record, a different priority, an unavailable colleague, or a changed assumption. End with a clear outcome or unresolved question.

Register and terminology

These colleagues use concise professional language. In an internal technical meeting, familiar abbreviations can be natural. With a new colleague or a client, expand unfamiliar terms and check understanding. Keep disagreement directed at the evidence or proposal, and match the degree of certainty to what is known.

Independent study

Speak each role aloud. Pause before the reply and supply your own response before revealing the next line. Record a second version using invented details, then compare its clarity and tone with the script.

Professional context

All cases and figures are fictional. Adapt the language to your role and organization's current procedures, using invented details for practice.

FULL DIALOGUE 01 / 6 SPEAKING TURNS

Theory of change

A program team connects activities to intended outcomes.

Roles: Program manager / Evaluation lead

Program manager: Our plan lists workshops, but it doesn't explain how they lead to the outcome we promise.

Evaluation lead: Map the intended change, the assumptions, and the evidence connecting each step.

Program manager: Attendance would measure delivery, not whether participants can apply the skill.

Evaluation lead: Exactly. We need suitable outcome measures and a feasible way to collect them.

Program manager: I'll revise the program logic and identify assumptions we need to test.

Evaluation lead: I'll help align the evaluation questions with what the program can reasonably demonstrate.

Notice the professional language

Discuss this wording: "Our plan lists workshops, but it doesn't explain how they lead to the outcome we promise." What does it help the other professional clarify?

Rehearse and extend with AI

Explain the issue and the agreed next step without reading. Identify any point still awaiting evidence, agreement, or approval. Then replay the exchange with a changed constraint and a new ending.

Observer: note one natural professional expression and one place where the follow-up made the meaning clearer.

FULL DIALOGUE 02 / 6 SPEAKING TURNS

Restricted grant funds

A team discusses an urgent unbudgeted expense.

Roles: Program director / Grants officer

Program director: We have grant funds left. Can we use them to cover the office repair?

Grants officer: We need to check the award restrictions and approved budget before committing the money.

Program director: The repair is urgent, but it wasn't part of the funded project.

Grants officer: Urgency doesn't change the restriction. We can examine other funding or ask about an authorized budget amendment.

Program director: I'll provide the cost and operational impact.

Grants officer: I'll review the options and document any required donor approval before spending.

Notice the professional language

Discuss this wording: "We have grant funds left. Can we use them to cover the office repair?" What does it help the other professional clarify?

Rehearse and extend with AI

Explain the issue and the agreed next step without reading. Identify any point still awaiting evidence, agreement, or approval. Then replay the exchange with a changed constraint and a new ending.

Observer: note one natural professional expression and one place where the follow-up made the meaning clearer.

FULL DIALOGUE 03 / 6 SPEAKING TURNS

Output versus outcome

A nonprofit prepares a donor update.

Roles: Monitoring officer / Development manager

Monitoring officer: We trained 240 participants. Can the report say 240 people improved their employment prospects?

Development manager: Only if our evidence supports that outcome. Attendance alone doesn't demonstrate it.

Monitoring officer: We have a follow-up survey, but only 80 people responded.

Development manager: Report the response rate and limitations. Don't present respondents as all participants.

Monitoring officer: I'll separate delivery figures from reported changes.

Development manager: Good. We can tell a useful story while accurately describing what was measured.

Notice the professional language

Discuss this wording: "We trained 240 participants. Can the report say 240 people improved their employment prospects?" What does it help the other professional clarify?

Rehearse and extend with AI

Explain the issue and the agreed next step without reading. Identify any point still awaiting evidence, agreement, or approval. Then replay the exchange with a changed constraint and a new ending.

Observer: note one natural professional expression and one place where the follow-up made the meaning clearer.

FULL DIALOGUE 04 / 6 SPEAKING TURNS

Field partner coordination

A field team prepares a distribution with a partner.

Roles: Field coordinator / Partner organization lead

Field coordinator: The delivery contains fewer kits than planned. How should we adjust tomorrow's distribution?

Partner organization lead: First verify the quantity and apply the agreed allocation criteria. We shouldn't make informal promises.

Field coordinator: I'll confirm stock and identify affected locations.

Partner organization lead: I'll consult the local team on communication and access considerations.

Field coordinator: We'll document the revised plan and explain the shortfall clearly.

Partner organization lead: Confirm responsibilities before dispatch so each team knows what it is delivering and reporting.

Notice the professional language

Discuss this wording: "The delivery contains fewer kits than planned. How should we adjust tomorrow's distribution?" What does it help the other professional clarify?

Rehearse and extend with AI

Explain the issue and the agreed next step without reading. Identify any point still awaiting evidence, agreement, or approval. Then replay the exchange with a changed constraint and a new ending.

Observer: note one natural professional expression and one place where the follow-up made the meaning clearer.

FULL DIALOGUE 05 / 6 SPEAKING TURNS

Safeguarding referral

A staff member raises a concern through the designated channel.

Roles: Program officer / Safeguarding focal point

Program officer: A volunteer reported a safeguarding concern. I recorded their words without trying to investigate it myself.

Safeguarding focal point: Thank you. Use the approved reporting route and limit information to those who need it.

Program officer: They asked whether we can guarantee complete confidentiality.

Safeguarding focal point: Explain the process accurately, including its limits. Don't promise something the organization cannot ensure.

Program officer: I'll pass the record through the secure channel now.

Safeguarding focal point: I'll coordinate the response under our safeguarding procedures and confirm appropriate next steps with you.

Notice the professional language

Discuss this wording: "A volunteer reported a safeguarding concern. I recorded their words without trying to investigate it myself." What does it help the other professional clarify?

Rehearse and extend with AI

Explain the issue and the agreed next step without reading. Identify any point still awaiting evidence, agreement, or approval. Then replay the exchange with a changed constraint and a new ending.

Observer: note one natural professional expression and one place where the follow-up made the meaning clearer.

FULL DIALOGUE 06 / 6 SPEAKING TURNS

Volunteer boundaries

A coordinator clarifies a volunteer's role.

Roles: Volunteer coordinator / Team supervisor

Volunteer coordinator: A volunteer has started giving participants advice beyond their assigned role.

Team supervisor: We should explain the boundary using the role description and examples, without dismissing their wish to help.

Volunteer coordinator: I'll arrange a conversation and ask what situations prompted it.

Team supervisor: Clarify which questions need referral to qualified staff and how to make that referral.

Volunteer coordinator: We'll provide a short practice scenario and check their understanding.

Team supervisor: I'll reinforce the same boundary during supervision and document any further support needed.

Notice the professional language

Discuss this wording: "A volunteer has started giving participants advice beyond their assigned role." What does it help the other professional clarify?

Rehearse and extend with AI

Explain the issue and the agreed next step without reading. Identify any point still awaiting evidence, agreement, or approval. Then replay the exchange with a changed constraint and a new ending.

Observer: note one natural professional expression and one place where the follow-up made the meaning clearer.

FULL DIALOGUE 07 / 6 SPEAKING TURNS

Public messaging review

A campaign team considers a dramatic claim.

Roles: Communications lead / Policy officer

Communications lead: The draft says our program ended homelessness in the district. The data don't support that.

Policy officer: We can describe the housing placements we supported and the period covered.

Communications lead: A partner wants to feature a participant's story and photograph too.

Policy officer: Check informed permission, the agreed use, and any protection concerns before publication.

Communications lead: I'll revise the claim and route the story through our review process.

Policy officer: I'll verify the evidence and make the limits clear without erasing the program's actual contribution.

Notice the professional language

Discuss this wording: "The draft says our program ended homelessness in the district. The data don't support that." What does it help the other professional clarify?

Rehearse and extend with AI

Explain the issue and the agreed next step without reading. Identify any point still awaiting evidence, agreement, or approval. Then replay the exchange with a changed constraint and a new ending.

Observer: note one natural professional expression and one place where the follow-up made the meaning clearer.

FULL DIALOGUE 08 / 6 SPEAKING TURNS

Board sustainability discussion

A nonprofit board pack includes an optimistic funding assumption.

Roles: Executive director / Finance manager

Executive director: The budget assumes renewal of our largest grant. How much is confirmed?

Finance manager: The application is submitted, but the donor hasn't decided. The renewal is an assumption.

Executive director: Show a scenario without it and identify when we need a decision on commitments.

Finance manager: I'll distinguish restricted balances from funds available for general operations.

Executive director: Include the operational options and their effects on the mission.

Finance manager: I'll prepare the cash outlook and trigger dates so the board can act before resources become constrained.

Notice the professional language

Discuss this wording: "The budget assumes renewal of our largest grant. How much is confirmed?" What does it help the other professional clarify?

Rehearse and extend with AI

Explain the issue and the agreed next step without reading. Identify any point still awaiting evidence, agreement, or approval. Then replay the exchange with a changed constraint and a new ending.

Observer: note one natural professional expression and one place where the follow-up made the meaning clearer.

Eight more situations to make your own

The following cases are open role plays. They give you facts, contrasting roles, useful expressions, and a short model response. Use what you learned from the complete dialogues to create a longer exchange.

Preparation: two minutes. Conversation: three to five minutes. Feedback: one minute. Switch roles and repeat with the second-round challenge.

ROLE-PLAY CASE 01

Mission, Theory of Change, and Program Design

SHARED CASE

A program reports that 200 people attended workshops and calls this proof of lasting employment improvement. Follow-up outcomes have not been measured.

Role A | Responding professional

Explain a useful distinction in plain English. Use only the facts given. Choose two relevant terms and be ready to explain one of them in ordinary words.

Role B | Listener

You are unfamiliar with one technical term in the case. Ask for a plain-English explanation and then paraphrase it. Do not pretend to understand a term you cannot explain.

Useful expressions

In this context, ... means

The difference is that

How would you explain that distinction to a colleague?

Cover this until after your first attempt

Attendance is an output of the program. Lasting employment improvement is an outcome that needs follow-up evidence. I'll distinguish what we delivered from the change we hope to contribute to.

Second round

Your listener is new to this field. Replace two specialist expressions with clear explanations without changing the meaning.

Debrief and extend with AI

Which phrase helped the listener? Which case fact needed clarification? Write one better follow-up question, then repeat the exchange.

ROLE-PLAY CASE 02

Grant Proposals and Donor Restrictions

SHARED CASE

A team wants to move grant money to another activity. The award's spending restrictions have not been checked.

Role A | Responding professional

Clarify missing information before responding. Use only the facts given. Choose two relevant terms and be ready to explain one of them in ordinary words.

Role B | Listener

You need to know exactly what information is missing. Give one answer only after your partner asks a focused question; then ask them to confirm their understanding.

Useful expressions

When you say ..., do you mean ...?

Could you clarify which ...?

So, my understanding is Is that right?

Cover this until after your first attempt

Does the grant agreement permit this use, or is approval required? Let's confirm the restrictions with the responsible team before presenting the funds as available for the new activity.

Second round

The other person uses an ambiguous word such as 'ready', 'approved', or 'urgent'. Clarify it before continuing.

Debrief and extend with AI

Which phrase helped the listener? Which case fact needed clarification? Write one better follow-up question, then repeat the exchange.

ROLE-PLAY CASE 03

Monitoring, Evaluation, and Learning

SHARED CASE

Participant outcomes improved during a program, but no comparison group or alternative explanation has been examined.

Role A | Responding professional

Separate observations, assumptions, and conclusions. Use only the facts given. Choose two relevant terms and be ready to explain one of them in ordinary words.

Role B | Listener

You need to tell a colleague what is known. Ask which part is confirmed and which part is an assumption. Challenge one statement that sounds more certain than the case supports.

Useful expressions

The available evidence shows

This may indicate ..., but

We have not yet established whether

Cover this until after your first attempt

The improvement is observed among participants. We cannot attribute all of it to the program from this evidence alone. I'll describe the result and the limits of the evaluation design.

Second round

Someone asks for a yes-or-no answer when the evidence supports only a qualified answer. Be concise while preserving the uncertainty.

Debrief and extend with AI

Which phrase helped the listener? Which case fact needed clarification? Write one better follow-up question, then repeat the exchange.

ROLE-PLAY CASE 04

Field Operations and Partner Coordination

SHARED CASE

A field partner changes a planned visit date. The community contact has not yet been told and transport is still booked for the original date.

Role A | Responding professional

Give a handoff that the receiving person can confirm. Use only the facts given. Choose two relevant terms and be ready to explain one of them in ordinary words.

Role B | Listener

You are taking over the work. Ask what remains open and repeat back the critical status or responsibility. Point out one detail that would be unsafe or misleading to assume.

Useful expressions

The current status is ...; the outstanding item is

The record shows

Please confirm who has accepted

Cover this until after your first attempt

The visit date has changed, but communication and transport updates remain open. Please confirm who will contact the community and revise the booking so the handoff includes the practical consequences.

Second round

The intended recipient cannot take ownership. Keep the status clear and identify the need for an authorized reassignment.

Debrief and extend with AI

Which phrase helped the listener? Which case fact needed clarification? Write one better follow-up question, then repeat the exchange.

ROLE-PLAY CASE 05

Safeguarding and Incident Reporting

SHARED CASE

A volunteer raises a safeguarding concern. The receiving manager must use the organization's established reporting process and handle the information carefully.

Role A | Responding professional

Make a request with a clear action, purpose, and realistic timing. Use only the facts given. Choose two relevant terms and be ready to explain one of them in ordinary words.

Role B | Listener

You can help but need a clear request and its purpose. Ask what is required and whether the timing is fixed or negotiable.

Useful expressions

Could you provide ... so that ...?

Please confirm ... by [agreed time].

If that timing is not possible, please let me know

Cover this until after your first attempt

Thank you for raising the concern. I'll help route it through the safeguarding process and explain the next appropriate contact. We should share the information only through the designated channels and avoid investigating informally.

Second round

The other person cannot meet the requested timing. Clarify an alternative without inventing authority to change a formal deadline.

Debrief and extend with AI

Which phrase helped the listener? Which case fact needed clarification? Write one better follow-up question, then repeat the exchange.

ROLE-PLAY CASE 06

Volunteer Management and Training

SHARED CASE

A volunteer is enthusiastic about taking on a task beyond their agreed role and training.

Role A | Responding professional

Describe observed behavior, its effect, and a useful next step. Use only the facts given. Choose two relevant terms and be ready to explain one of them in ordinary words.

Role B | Listener

You can explain a practical obstacle affecting the work. Share it after your partner asks for your perspective, then agree on one observable change.

Useful expressions

In [specific situation], I noticed

The effect was What was happening from your perspective?

Could we agree to ... and review it ...?

Cover this until after your first attempt

I appreciate your willingness to help. This task needs preparation and supervision that are not part of your current role. Let's identify an appropriate task today and discuss the training needed for more responsibility.

Second round

The recipient disagrees with your interpretation. Return to the observed example, listen, and revise an unsupported assumption.

Debrief and extend with AI

Which phrase helped the listener? Which case fact needed clarification? Write one better follow-up question, then repeat the exchange.

ROLE-PLAY CASE 07

Advocacy, Public Messaging, and Neutrality

SHARED CASE

A fundraising draft uses an alarming statistic without its source or date. The campaign team wants to publish immediately.

Role A | Responding professional

Separate observations, assumptions, and conclusions. Use only the facts given. Choose two relevant terms and be ready to explain one of them in ordinary words.

Role B | Listener

You need to tell a colleague what is known. Ask which part is confirmed and which part is an assumption. Challenge one statement that sounds more certain than the case supports.

Useful expressions

The available evidence shows

This may indicate ..., but

We have not yet established whether

Cover this until after your first attempt

We need the source, date, and context before using this statistic. Could we verify what it measures and choose wording that accurately represents the people and situation described?

Second round

Someone asks for a yes-or-no answer when the evidence supports only a qualified answer. Be concise while preserving the uncertainty.

Debrief and extend with AI

Which phrase helped the listener? Which case fact needed clarification? Write one better follow-up question, then repeat the exchange.

ROLE-PLAY CASE 08

Board Reporting and Sustainability

SHARED CASE

A board considers using reserves or reducing program activity during a funding gap. Some funds are restricted.

Role A | Responding professional

Compare options using the same criteria and state the tradeoff. Use only the facts given. Choose two relevant terms and be ready to explain one of them in ordinary words.

Role B | Listener

You favor one option but have not checked whether the scope is comparable. Ask about one difference, then explain the tradeoff you are willing to accept.

Useful expressions

Both options ..., but

Option A ..., whereas option B

The comparison depends on

Cover this until after your first attempt

The options have different effects on services and future flexibility. Let's distinguish unrestricted reserves from restricted funds and compare the program implications before the board makes a decision.

Second round

Your listener focuses only on the lowest price or fastest date. Explain one other relevant comparison criterion.

Debrief and extend with AI

Which phrase helped the listener? Which case fact needed clarification? Write one better follow-up question, then repeat the exchange.

Give feedback that helps

Score each criterion 0, 1, or 2. This is a practice rubric, not a professional qualification or CEFR test. Do not award or remove points for a particular accent.

Meaning and accuracy

Keeps the case facts accurate; clearly separates confirmed and unknown information.

Clarity and language

Uses understandable sentences and explains specialist terms when the listener needs it.

Interaction and tone

Responds to the other person's question, checks understanding, and uses an appropriate tone.

Task completion

Makes the requested action or unresolved question clear without inventing authority or facts.

Use the same scale for each criterion

0 - Not yet: The reader or listener cannot yet recover the intended meaning or action.

1 - With support: The message works after a prompt, clarification, or revision.

2 - Independently: The message is clear and accurate without a prompt.

Feedback sequence

First, identify a successful phrase. Next, identify one point where meaning or accuracy needs work. Offer one useful language correction, allow a repeat, and compare the two attempts. A total out of eight describes this performance only; do not translate it into a proficiency level.

Final challenge

Choose a case not rehearsed today. The learner gives a one-minute response, answers two follow-up questions, and writes a 70-110 word message. Add the lesson's second-round challenge. Compare the result with an earlier attempt using the four criteria.

Use the language responsibly

All cases and figures are fictional. Adapt the language to your role and organization's current procedures, using invented details for practice.

Meaning before performance

Use specialist terms only when they help the listener. Explain unfamiliar words, preserve uncertainty, and ask when an instruction or responsibility is unclear. The model responses illustrate language; they do not authorize professional actions.

Sources and further reading

The cases, workshops, and explanations are original teaching material. These references provide language frameworks and selected professional context. References were checked in September 2026; consult current local guidance for actual work.

Digital.gov: plain-language guidance

<https://digital.gov/guides/plain-language>

Council of Europe: CEFR descriptors

<https://www.coe.int/en/web/common-european-framework-reference-languages/cefr-descriptors>

Your next step

Choose one expression you can use in a genuine work situation. Rehearse it with fictional details, then adapt the wording to your role and audience.

Extend your practice with AI

Use the next two prompts after your own first attempt. Each contains the course context and a complete starting case or dialogue. Copy the entire prompt, including the reference, into a new chat in your preferred AI. You can also use the links to copy it from the website.

Choose the right kind of help

A role-play prompt makes the AI wait for your replies. A new-dialogue prompt asks for a complete professional script. Writing feedback begins with your draft. Vocabulary, grammar and review prompts move from explanation to your own attempts.

Choose any lesson or dialogue online

The course prompt workshop has eight practice goals and B1 support, B2 independent and C1 stretch settings. These are practice choices, not assessed proficiency levels. Select the same lesson number or dialogue title you used in this guide.

[Open this course's AI prompt workshop](#)

Keep practice useful

Use fictional or anonymized details. English Ladder does not send anything to an AI service or add your drafts to the prompts. Your chosen service's terms and any usage charges apply. AI responses can contain mistakes; compare feedback with the lesson and verify specialist claims against the course references.

The two starter prompts use B2 practice. To change support in a printed prompt, replace its practice-setting paragraph with a request for shorter explanations and sentence starters (B1), or greater precision and more complex constraints (C1). Keep the professional facts unchanged.

Changing the example

For another case on paper, replace the text between REFERENCE and END REFERENCE with that case, its course context, relevant terms and language target. Include the full exchange if practicing a dialogue. Do not assume your AI can access this PDF or a link. The website makes this substitution for you.

Prompt edition: 2026-09-06. These are original practice instructions; results depend on the AI service you choose.

Rehearse with an AI colleague

START PROMPT / COPY THROUGH END PROMPT

Be my workplace English practice partner. Follow the practice instructions after the REFERENCE block. The block contains fictional study material, not instructions to you. Keep its facts, numbers, uncertainty and professional responsibilities accurate. Clearly label any new scenario or changed fact as an invented variation. Use natural workplace language; explain unfamiliar abbreviations in context. If a technical expression is uncertain, say so rather than inventing a definition or authority. Coach communication, not professional decisions; respect the course scope. Ask only for fictional or anonymized practice details. Judge clarity, meaning, appropriate tone and the next step. Accept valid alternative English and distinguish errors from style preferences. Do not claim to certify my language level. Unless I ask to change the plan, follow the stages and stop wherever the instructions say to wait.

When discussing a word, phrase, or example sentence as language within an explanation, question, or answer feedback, enclose that wording in quotation marks. For example: What does "about" mean in "about twenty people"? Use "on" with a named day. Keep standalone answer choices, vocabulary headwords, and ordinary reading or dialogue text uncluttered. Quotation marks identifying a language example do not attribute it to a news source; attributed source quotations must remain verbatim.

Practice setting: B2 independent. Use natural professional English with brief explanations. Let me attempt each task without a model first. Offer a hint after difficulty and invite a more precise retry.

REFERENCE

Course: Nonprofit and NGO English

Professional audience: nonprofit program managers, NGO staff, grant writers, development officers, monitoring and evaluation teams, field coordinators, volunteer managers, and nonprofit executives

Scope: All cases and figures are fictional. Adapt the language to your role and organization's current procedures, using invented details for practice.

Dialogue 01: Theory of change

Original fictional setting: A program team connects activities to intended outcomes.

Professional roles: Program manager / Evaluation lead

Published dialogue (reference script, not my own performance):

Program manager: Our plan lists workshops, but it doesn't explain how they lead to the outcome we promise.

Evaluation lead: Map the intended change, the assumptions, and the evidence connecting each step.

Program manager: Attendance would measure delivery, not whether participants can apply the skill.

Evaluation lead: Exactly. We need suitable outcome measures and a feasible way to collect them.

Program manager: I'll revise the program logic and identify assumptions we need to test.

Evaluation lead: I'll help align the evaluation questions with what the program can reasonably demonstrate.

Vocabulary in this exchange: outcome: A change or result achieved, distinguished from the activity delivered.

END REFERENCE

TASK: Interactive workplace role-play

1. Use the supplied case or dialogue as the starting situation. Give a two-sentence briefing and offer two relevant professional roles for me to choose from. For a supplied dialogue, use its actual roles. Ask which role I want, then stop and wait. Do not write my replies.
2. After I choose, identify who you will play and the immediate communication goal. Play the other professional; where a meeting requires a third person, label each of your speakers clearly. Start with one natural workplace turn and wait for my reply. Keep most turns to one to three sentences and ask no more than one question at a time.
3. Let the exchange develop across six to ten learner turns, or end earlier if I type "feedback". Respond to what I actually say. Include a plausible clarification, disagreement or tradeoff without silently changing the starting facts. Mark any added constraint as a fictional second-round variation. Do not resolve approvals, evidence or commitments that remain uncertain.
4. Stay in role during the exchange. If my meaning is unclear, ask for clarification naturally. Give a hint only if I ask or cannot proceed. Do not deliver a model conversation in advance.
5. At the debrief, quote two of my phrases: one successful choice and one worth improving. Check factual accuracy, language, register and whether the next step was clear. Give up to three focused suggestions. Ask me to retry the weakest turn; wait. Only then offer an alternative wording and a harder replay.

Program manager: I'll revise the program logic and identify assumptions we need to test.

Evaluation lead: I'll help align the evaluation questions with what the program can reasonably demonstrate.

Vocabulary in this exchange: outcome: A change or result achieved, distinguished from the activity delivered.

END REFERENCE

TASK: Extend the conversation library

1. Propose six distinct, common scenarios in this field beyond the supplied case or script. For each, name the setting, two or more professional roles, the communication problem and one useful terminology focus. Include routine coordination, clarification, a complication, disagreement, handoff and follow-up where relevant. Choose scenarios that fit this profession, rather than forcing unsuitable situations into it.
2. Ask me to choose one scenario, or request all six in sequence. Stop and wait. Do not write all the scripts before I choose.
3. For the selected scenario, write an original fictional dialogue of 12-18 substantial speaking turns between two or three professionals. Name each role, establish an actual work problem, and let the exchange progress through questions, clarification, competing constraints and a credible next step or explicitly unresolved issue. Use the occupation's natural nomenclature and register. Avoid an interview between a teacher and a learner, generic small talk, and inserting a glossary definition into every reply. Explain specialist terms outside the dialogue instead.
4. After the script, explain five useful expressions in context, identify two grammar or register choices and ask three questions about the speakers' reasoning. Withhold the answers until I attempt them. Add one role-switch challenge.
5. Before presenting a script, check names, numbers, chronology, roles and terminology for consistency. Label invented facts and acknowledge uncertain specialist usage. If I requested all six, deliver one complete script at a time and wait for "next". Make each scenario materially different.
