Concept #20 ► Money Terms

The **value** is what the consumer or average market participant will pay.
The **price** the amount of money the seller is asking for.

Q: How much does it cost? What is its worth/value? What is its price? How expensive/cheap is it? What are you charging for this? It is reasonable/affordable?	A: It costs more than I can afford. Its value is higher than I expected. The price is \$5/high/low. It is too expensive for me. We are charging \$5 for it. It is quite reasonable/affordable.
---	--

Price: A general usage term.
Charge: Commonly, extra money paid for an activity.
Fare: Money paid for transportation.
Fee: A small additional payment for a service.
Cost: Commonly, the sum of many purchases.
Bill: Invoice for household expenses & utilities.
Payment: A fraction of a costly product paid monthly.
Expense: A cost from the perspective of budgeting.

Products and services
are **expensive** or
inexpensive.

Prices, charges, fares,
fees, and costs are **high**
or **low**.

Bills, payments, and
expenses are **large** or
small.

At a Glance

Lesson focus Grammar Concepts #20	Suggested timing 45-60 minutes
Core objective Students explain the target pattern clearly and apply it accurately in controlled practice and discussion.	Materials Student PDF, the concept image, board space, and time for partner checking.

Suggested Lesson Flow

Warm-up

Display the concept image and ask learners to predict the rule behind **Grammar Concepts #20** before reading the explanation.

Model

Walk through the Core Idea and the sections on Key Points, Bonus Section. Pause after each part so students can restate the pattern in plain English.

Guided practice

Project two or three examples from the concept sheet and ask pairs to explain why each choice works, not just what the answer is.

Independent work

Assign the 24 practice items for quiet work, partner checking, and final feedback.

Closure

Ask students to create one new sentence or mini-example of their own that follows the same pattern.

Likely Learner Errors

- Learners may overgeneralize the first pattern they notice. Keep returning to **Key Points, Bonus Section:** and ask students to explain what changes from one example to the next.
- Long explanations can hide the signal word or structure. Have students underline the exact phrase that tells them which form, pattern, or response is needed.
- If students can choose an answer but cannot explain it, ask them to justify their choice using words taken directly from the concept sheet.

Differentiation and Delivery Notes

- Support: teach one section at a time, then send students back to **the examples** or the practice set so they can apply the same rule immediately.
- Pair work: let students compare answers aloud before you reveal the key. The explanation step is as important as the final answer.
- Extension: ask stronger students to write two fresh examples or a short dialogue that uses the same target language accurately.

Model Language from the Concept Sheet

- "How much does it cost?"
- "What is its worth/value?"
- "What is its price?"
- "How expensive/cheap is it?"
- "What are you charging for this?"
- "Is it reasonable/affordable?"

Answer Key

Use this key for whole-class feedback or fast marking.

Item 01 The correct answer is A. This question uses "How much" which is the most appropriate way to ask about price or cost.

Item 02 The correct answer is A. This sentence correctly uses "more than" to make a comparison.

Item 03 The correct answer is B. The phrase "too expensive" correctly expresses that the price exceeds an acceptable level.

Item 04 The correct answer is D. This sentence correctly uses "are charging" to describe an ongoing action.

Item 05 The correct answer is B. This sentence correctly uses "quite" to modify the adjective "reasonable".

Item 06 The correct answer is C. This sentence correctly uses "charge" to describe an additional payment for a service.

Item 07 The correct answer is B. This sentence correctly uses "fare" to describe the cost of transportation.

Item 08 The correct answer is C. This sentence correctly uses "fee" to describe a regular payment for a service.

Item 09 The correct answer is D. This sentence correctly uses "cost" to refer to the total sum of expenses.

Item 10 The correct answer is B. This sentence correctly uses "bill" to refer to an invoice for household utilities.

Item 11 The correct answer is D. This sentence correctly uses "payments" to describe regular installments on a large purchase.

Item 12 The correct answer is C. This sentence correctly uses "expenses" when discussing costs from a budgeting perspective.

Item 13 The correct answer is C. This sentence correctly uses "expensive" as an adjective to describe higher-priced items.

Item 14 The correct answer is B. This sentence uses "inexpensive" to describe a service that doesn't cost much. "Budget," "bargain," and "discount" are not as commonly used as adjectives in this context and sound less natural.

Item 15 The correct answer is D. This sentence correctly uses "high" to describe elevated prices.

Item 16 The correct answer is C. This sentence correctly uses "low" to describe a small fee.

Item 17 The correct answer is B. This sentence correctly uses "larger" to describe increased bills.

Item 18 The correct answer is C. This sentence correctly uses "most expensive" and "lowest" to make comparisons.

Item 19 The correct answer is C. This question correctly uses "reasonable" to inquire about the fairness of a price.

Item 20 The correct answer is A. This question correctly uses "affordable" to ask if the apartment is within a student's financial means.

Item 21 The correct answer is D. This sentence correctly uses "are charging" to describe an ongoing action.

Item 22 The correct answer is A. This question correctly uses "What" to inquire about the price or cost of an item.

Item 23 The correct answer is A. This question correctly uses "worth" to inquire about the value of an item.

Item 24 The correct answer is B. This sentence correctly uses "decreased the price" to describe a reduction in cost.
