Concept #36 ► Speak | Talk | Say | Tell

The four words below are often confused. Be sure to use them correctly.

Speak

You can "speak" loudly, quietly, politely, and with an accent. You can "speak" French or Spanish. You "speak" to an audience if making a largely formal presentation. If you "speak your mind" (idiom), you are giving your honest opinion.

Say

If you "say" what someone else said, you are usually repeating their exact words such as in "Tom said 'I'm coming'." You can also say "He said (to me) he would come." But you can not omit the "to" such as in "He said me he would come."

Talk

You can "talk" loudly, quietly, politely, and with an accent. When a baby utters her first words we say "She's talking!" If you are giving "a talk" to an audience, it is often more of a casual two-way conversation than when you give a formal speech.

Tell

When "telling" someone what Tom said, you usually don't use Tom's exact words. You only convey the main idea as in "He told me he would come." You can "tell" a joke, a story, a lie, and the truth. You can also "tell" (order) someone to do something.

Suggested Lesson Flow

Warm-up

Display the concept image and ask learners to predict the rule behind **Speak, Talk, Say, Tell** before reading the explanation.

Model

Walk through the Core Idea and the sections on Key Points, Summary and Additional Examples, Exceptions and Special Cases. Pause after each part so students can restate the pattern in plain English.

Guided practice

Project two or three examples from the concept sheet and ask pairs to explain why each choice works, not just what the answer is.

Independent work

Assign the 24 practice items for quiet work, partner checking, and final feedback.

Closure

Ask students to create one new sentence or mini-example of their own that follows the same pattern.

Likely Learner Errors

- Learners may overgeneralize the first pattern they notice. Keep returning to **Key Points, Summary and Additional Examples, Exceptions and Special Cases** and ask students to explain what changes from one example to the next.
- Long explanations can hide the signal word or structure. Have students underline the exact phrase that tells them which form, pattern, or response is needed.
- If students can choose an answer but cannot explain it, ask them to justify their choice using words taken directly from the concept sheet.

Differentiation and Delivery Notes

- Support: teach one section at a time, then send students back to **the examples** or the practice set so they can apply the same rule immediately.
- Pair work: let students compare answers aloud before you reveal the key. The explanation step is as important as the final answer.
- Extension: ask stronger students to write two fresh examples or a short dialogue that uses the same target language accurately.

Model Language from the Concept Sheet

- Formal Presentation: "She spoke at the conference about climate change." "The president spoke to the nation last night."
- Language Ability: "He speaks three languages: English, Spanish, and Mandarin." "Do you speak French?"
- Expressing an Opinion: "You should speak your mind if you disagree." "He spoke out against the injustice he witnessed."
- Speaking Manner: "She spoke quietly so as not to disturb anyone." "Please speak loudly so everyone can hear you."
- Casual Conversations: "We talked about the movie we watched last night." "Can we talk later? I'm a bit busy right now."
- Two-way Communication: "I like to talk with my friends about our weekend plans." "She talked to her boss about getting a promotion."

Answer Key

Use this key for whole-class feedback or fast marking.

Item 01 A) He speaks French fluently. **Explanation:** "Speaks" is correct because it refers to the ability to use a language. "Says," "tells," and "talks" are incorrect because they do not convey the idea of language ability.
