At a Glance

Lesson focus Grammar Concepts: Using By and Through	Suggested timing 45-60 minutes
Core objective Students explain the target pattern clearly and apply it accurately in controlled practice and discussion.	Materials Student PDF, the concept image, board space, and time for partner checking.

Suggested Lesson Flow

Warm-up	Display the concept image and ask learners to predict the rule behind Grammar Concepts: Using By and Through before reading the explanation.
Model	Walk through the Core Idea and the sections on Key Points, Additional Examples and Practice, Summary. Pause after each part so students can restate the pattern in plain English.
Guided practice	Project two or three examples from the concept sheet and ask pairs to explain why each choice works, not just what the answer is.
Independent work	Assign the 24 practice items for quiet work, partner checking, and final feedback.
Closure	Ask students to create one new sentence or mini-example of their own that follows the same pattern.

Likely Learner Errors

- Learners may overgeneralize the first pattern they notice. Keep returning to **Key Points, Additional Examples and Practice, Summary** and ask students to explain what changes from one example to the next.
- Long explanations can hide the signal word or structure. Have students underline the exact phrase that tells them which form, pattern, or response is needed.
- If students can choose an answer but cannot explain it, ask them to justify their choice using words taken directly from the concept sheet.

Differentiation and Delivery Notes

- Support: teach one section at a time, then send students back to **the examples** or the practice set so they can apply the same rule immediately.
- Pair work: let students compare answers aloud before you reveal the key. The explanation step is as important as the final answer.
- Extension: ask stronger students to write two fresh examples or a short dialogue that uses the same target language accurately.

Model Language from the Concept Sheet

- By is generally used before an -ing verb.
- Through is generally used before a noun phrase.
- Method: Indicates the way something is achieved.
- Means: Describes the method or process.
- She improved her health by exercising regularly.
- He succeeded by working hard every day.
