Concept #20 ► **Money Terms**

The **value** is what the consumer or average market participant will pay.
The **price** the amount of money the seller is asking for.

Q: How much does it cost?	A: It costs more than I can afford.
What is its worth/value?	Its value is higher than I expected.
What is its price?	The price is \$5/high/low.
How expensive/cheap is it?	It is too expensive for me.
What are you charging for this?	We are charging \$5 for it.
It is reasonable/affordable?	It is quite reasonable/affordable.

Price: A general usage term.
Charge: Commonly, extra money paid for an activity.
Fare: Money paid for transportation.
Fee: A small additional payment for a service.
Cost: Commonly, the sum of many purchases.
Bill: Invoice for household expenses & utilities.
Payment: A fraction of a costly product paid monthly.
Expense: A cost from the perspective of budgeting.

Products and services are **expensive** or **inexpensive**.

Prices, charges, fares, fees, and costs are **high** or **low**.

Bills, payments, and expenses are **large** or **small**.

At a Glance

Lesson focus Grammar Concepts #20	Suggested timing 45-60 minutes
Core objective Students explain the target pattern clearly and apply it accurately in controlled practice and discussion.	Materials Student PDF, the concept image, board space, and time for partner checking.

Suggested Lesson Flow

Warm-up	Display the concept image and ask learners to predict the rule behind Grammar Concepts #20 before reading the explanation.
Model	Walk through the Core Idea and the sections on Key Points, Bonus Section. Pause after each part so students can restate the pattern in plain English.
Guided practice	Project two or three examples from the concept sheet and ask pairs to explain why each choice works, not just what the answer is.
Independent work	Assign the 24 practice items for quiet work, partner checking, and final feedback.
Closure	Ask students to create one new sentence or mini-example of their own that follows the same pattern.

Likely Learner Errors

- Learners may overgeneralize the first pattern they notice. Keep returning to **Key Points, Bonus Section:** and ask students to explain what changes from one example to the next.
- Long explanations can hide the signal word or structure. Have students underline the exact phrase that tells them which form, pattern, or response is needed.
- If students can choose an answer but cannot explain it, ask them to justify their choice using words taken directly from the concept sheet.

Differentiation and Delivery Notes

- Support: teach one section at a time, then send students back to **the examples** or the practice set so they can apply the same rule immediately.
- Pair work: let students compare answers aloud before you reveal the key. The explanation step is as important as the final answer.
- Extension: ask stronger students to write two fresh examples or a short dialogue that uses the same target language accurately.

Model Language from the Concept Sheet

- "How much does it cost?"
- "What is its worth/value?" "What is its price?"
- "How expensive/cheap is it?" "What are you charging for this?"
- "Is it reasonable/affordable?"
- "It costs more than I can afford."
- "Its value is higher than I expected."
