

Biotechnology English Participant Workbook

Practice pages for realistic field-specific meetings, pushback, documentation, and role-play preparation

Audience: biotech scientists, translational researchers, assay-development teams, platform teams, program managers, alliance managers, business-development staff, and biotech executives

Focus: A high-level biotechnology English curriculum for platform science, assay design, translational evidence, biomarkers, IP, partnerships, investor updates, regulatory-adjacent planning, and scientific-business dialogue.

Designed for advanced ESL learners who already use professional English and need industry-specific terminology, realistic meetings, role-play pressure, careful pushback, and polished workplace outputs.

Teaching stance: this is language and workplace-communication training, not legal, medical, financial, safety, or regulatory advice. Instructors should connect every scenario to the learner's current company policies, local rules, and approved procedures.

How to Use This Workbook

For each module, read a workplace scenario and complete a bounded dialogue. Choose one of four options, then use the answer key to see why the selected phrase fits the evidence, risk, owner, and next step.

Module 1. Platform Technology and Scientific Thesis

Situation

A founder wants to describe the platform as broadly validated.

Stakeholder pressure: Use the strongest possible investor language.

Constraint: The evidence supports specific models and indications, not every future use case.

Terms to use

- platform
- modality
- proof of concept
- translatability

Guided dialogue completion

Situation

A founder wants to describe the platform as broadly validated.

Speaker	Line
Stakeholder	Use the strongest possible investor language.
ESL learner	I understand the urgency. Before we commit, I need to confirm platform, modality, the owner, and the evidence standard.
Stakeholder	What would let us move forward responsibly?
ESL learner	Let's document the risk and prepare a _____ with facts, caveats, owner, and next step.

Choose the missing language

Option	Phrase
A	mitigation
B	approval
C	platform evidence statement
D	assumption

Module 2. Assay Development and Reproducibility

Situation

A partner asks whether a biomarker assay is ready for decision-making.

Stakeholder pressure: Say the assay works because the pilot was positive.

Constraint: Precision, sensitivity, specificity, controls, and reproducibility need review.

Terms to use

- assay
- sensitivity
- specificity
- reproducibility

Guided dialogue completion**Situation**

A partner asks whether a biomarker assay is ready for decision-making.

Speaker	Line
Stakeholder	Say the assay works because the pilot was positive.
ESL learner	I understand the urgency. Before we commit, I need to confirm assay, sensitivity, the owner, and the evidence standard.
Stakeholder	What would let us move forward responsibly?
ESL learner	Let's document the risk and prepare a _____ with facts, caveats, owner, and next step.

Choose the missing language

Option	Phrase
A	timeline
B	assumption
C	assay readiness note
D	scope

Module 3. Biomarkers and Translational Strategy**Situation**

A team wants to use a biomarker as the main development rationale.

Stakeholder pressure: Make the biomarker the centerpiece of the clinical story.

Constraint: Biological plausibility, patient relevance, and validation status are different.

Terms to use

- biomarker
- patient stratification
- surrogate endpoint

- validation

Guided dialogue completion

Situation

A team wants to use a biomarker as the main development rationale.

Speaker	Line
Stakeholder	Make the biomarker the centerpiece of the clinical story.
ESL learner	I understand the urgency. Before we commit, I need to confirm biomarker, patient stratification, the owner, and the evidence standard.
Stakeholder	What would let us move forward responsibly?
ESL learner	Let's document the risk and prepare a _____ with facts, caveats, owner, and next step.

Choose the missing language

Option	Phrase
A	assumption
B	biomarker caveat memo
C	scope
D	timeline

Module 4. Preclinical Data Packages

Situation

A board member asks whether animal data prove human efficacy.

Stakeholder pressure: Say the model predicts human response.

Constraint: Model relevance, dose, exposure, safety margin, and limitations must be named.

Terms to use

- in vitro
- in vivo
- toxicity
- safety margin

Guided dialogue completion

Situation

A board member asks whether animal data prove human efficacy.

Speaker	Line
Stakeholder	Say the model predicts human response.
ESL learner	I understand the urgency. Before we commit, I need to confirm in vitro, in vivo, the owner, and the evidence standard.

Speaker	Line
Stakeholder	What would let us move forward responsibly?
ESL learner	Let's document the risk and prepare a _____ with facts, caveats, owner, and next step.

Choose the missing language

Option	Phrase
A	owner
B	scope
C	preclinical evidence summary
D	risk

Module 5. CMC and Scale-Up in Biotech

Situation

A program lead wants to promise rapid scale-up after financing.

Stakeholder pressure: Assure investors that scale-up will be simple.

Constraint: Yield, process control, comparability, and supply-chain risk are unresolved.

Terms to use

- CMC
- yield
- comparability
- tech transfer

Guided dialogue completion

Situation

A program lead wants to promise rapid scale-up after financing.

Speaker	Line
Stakeholder	Assure investors that scale-up will be simple.
ESL learner	I understand the urgency. Before we commit, I need to confirm CMC, yield, the owner, and the evidence standard.
Stakeholder	What would let us move forward responsibly?
ESL learner	Let's document the risk and prepare a _____ with facts, caveats, owner, and next step.

Choose the missing language

Option	Phrase
A	risk
B	scale-up risk update
C	partnering negotiation brief

Option	Phrase
D	evidence

Module 6. IP, Freedom to Operate, and Collaboration

Situation

A collaborator requests broad access to unpublished methods.

Stakeholder pressure: Share the materials to keep the relationship warm.

Constraint: Confidentiality, background IP, publication rights, and freedom to operate matter.

Terms to use

- IP
- freedom to operate
- material transfer agreement
- publication rights

Guided dialogue completion

Situation

A collaborator requests broad access to unpublished methods.

Speaker	Line
Stakeholder	Share the materials to keep the relationship warm.
ESL learner	I understand the urgency. Before we commit, I need to confirm IP, freedom to operate, the owner, and the evidence standard.
Stakeholder	What would let us move forward responsibly?
ESL learner	Let's document the risk and prepare a _____ with facts, caveats, owner, and next step.

Choose the missing language

Option	Phrase
A	partnering negotiation brief
B	evidence
C	collaboration boundary response
D	investor-ready milestone update

Module 7. Investor and Board Updates

Situation

The board wants a clean milestone story before a financing round.

Stakeholder pressure: Remove uncertainties from the update.

Constraint: Credibility requires clear milestones, risks, assumptions, and mitigation.

Terms to use

- milestone
- runway
- inflection point
- risk mitigation

Guided dialogue completion**Situation**

The board wants a clean milestone story before a financing round.

Speaker	Line
Stakeholder	Remove uncertainties from the update.
ESL learner	I understand the urgency. Before we commit, I need to confirm milestone, runway, the owner, and the evidence standard.
Stakeholder	What would let us move forward responsibly?
ESL learner	Let's document the risk and prepare a _____ with facts, caveats, owner, and next step.

Choose the missing language

Option	Phrase
A	owner
B	scope
C	investor-ready milestone update
D	risk

Module 8. Partnering and Business Development**Situation**

A potential partner wants exclusive rights after limited data review.

Stakeholder pressure: Agree quickly before they lose interest.

Constraint: Diligence, territory, field, economics, governance, and data rights need definition.

Terms to use

- term sheet
- option
- exclusivity
- due diligence

Guided dialogue completion**Situation**

A potential partner wants exclusive rights after limited data review.

Speaker	Line
Stakeholder	Agree quickly before they lose interest.
ESL learner	I understand the urgency. Before we commit, I need to confirm term sheet, option, the owner, and the evidence standard.
Stakeholder	What would let us move forward responsibly?
ESL learner	Let's document the risk and prepare a _____ with facts, caveats, owner, and next step.

Choose the missing language

Option	Phrase
A	control
B	partnering negotiation brief
C	mitigation
D	approval

Answer Key and Rationale

Check each answer after completing the dialogue. The rationale shows why the correct phrase is the strongest fit for the real workplace situation.

Platform Technology and Scientific Thesis

Correct answer	Why it fits
C. platform evidence statement	A platform evidence statement is the bounded workplace output that captures the evidence, owner, and next action for this situation.

Assay Development and Reproducibility

Correct answer	Why it fits
C. assay readiness note	A assay readiness note is the bounded workplace output that captures the evidence, owner, and next action for this situation.

Biomarkers and Translational Strategy

Correct answer	Why it fits
B. biomarker caveat memo	A biomarker caveat memo is the bounded workplace output that captures the evidence, owner, and next action for this situation.

Preclinical Data Packages

Correct answer	Why it fits
C. preclinical evidence summary	A preclinical evidence summary is the bounded workplace output that captures the evidence, owner, and next action for this situation.

CMC and Scale-Up in Biotech

Correct answer	Why it fits
B. scale-up risk update	A scale-up risk update is the bounded workplace output that captures the evidence, owner, and next action for this situation.

IP, Freedom to Operate, and Collaboration

Correct answer	Why it fits
C. collaboration boundary response	A collaboration boundary response is the bounded workplace output that captures the evidence, owner, and next action for this situation.

Investor and Board Updates

Correct answer	Why it fits
C. investor-ready milestone update	A investor-ready milestone update is the bounded workplace output that captures the evidence, owner, and next action for this situation.

Partnering and Business Development

Correct answer	Why it fits
B. partnering negotiation brief	A partnering negotiation brief is the bounded workplace output that captures the evidence, owner, and next action for this situation.
