

Customer Success English Participant Workbook

Practice pages for realistic field-specific meetings, pushback, documentation, and role-play preparation

Audience: customer success managers, account managers, onboarding specialists, support escalation leads, renewals managers, implementation teams, and post-sale revenue leaders

Focus: A customer success English curriculum for onboarding, adoption, health scoring, escalations, QBRs, renewals, churn risk, difficult customers, product feedback, and expansion conversations.

Designed for advanced ESL learners who already use professional English and need industry-specific terminology, realistic meetings, role-play pressure, careful pushback, and polished workplace outputs.

Teaching stance: this is language and workplace-communication training, not legal, medical, financial, safety, or regulatory advice. Instructors should connect every scenario to the learner's current company policies, local rules, and approved procedures.

How to Use This Workbook

For each module, read a workplace scenario and complete a bounded dialogue. Choose one of four options, then use the answer key to see why the selected phrase fits the evidence, risk, owner, and next step.

Module 1. Onboarding and Implementation Expectations

Situation

A customer expects go-live in two weeks despite incomplete data.

Stakeholder pressure: Promise the date to maintain excitement.

Constraint: Scope, data readiness, customer owner, training, and risk need alignment.

Terms to use
