

Insurance English Participant Workbook

Practice pages for realistic field-specific meetings, pushback, documentation, and role-play preparation

Audience: underwriters, claims adjusters, brokers, risk managers, actuarial analysts, policy-service teams, compliance staff, and insurance operations leaders

Focus: An insurance English curriculum for underwriting, claims, policy language, coverage disputes, actuarial assumptions, broker communication, fraud concerns, compliance, and customer escalation.

Designed for advanced ESL learners who already use professional English and need industry-specific terminology, realistic meetings, role-play pressure, careful pushback, and polished workplace outputs.

Teaching stance: this is language and workplace-communication training, not legal, medical, financial, safety, or regulatory advice. Instructors should connect every scenario to the learner's current company policies, local rules, and approved procedures.

How to Use This Workbook

For each module, read a workplace scenario and complete a bounded dialogue. Choose one of four options, then use the answer key to see why the selected phrase fits the evidence, risk, owner, and next step.

Module 1. Underwriting and Risk Selection

Situation

A broker asks why a profitable account received a restrictive quote.

Stakeholder pressure: Say the risk appetite changed.

Constraint: Exposure, loss history, controls, appetite, and pricing adequacy need explanation.
