

Sales and Business Development English Participant Workbook

Practice pages for realistic field-specific meetings, pushback, documentation, and role-play preparation

Audience: account executives, business-development representatives, sales managers, partnership teams, solutions consultants, channel managers, and revenue leaders

Focus: A sales and business development English curriculum for discovery, qualification, objection handling, pricing, procurement, enterprise buying committees, negotiation, partnership language, and CRM discipline.

Designed for advanced ESL learners who already use professional English and need industry-specific terminology, realistic meetings, role-play pressure, careful pushback, and polished workplace outputs.

Teaching stance: this is language and workplace-communication training, not legal, medical, financial, safety, or regulatory advice. Instructors should connect every scenario to the learner's current company policies, local rules, and approved procedures.

How to Use This Workbook

For each module, read a workplace scenario and complete a bounded dialogue. Choose one of four options, then use the answer key to see why the selected phrase fits the evidence, risk, owner, and next step.
