

To do and for doing

Learner workbook

Explain a purpose or the function of an object.

Understand the distinction

Use to + base verb to explain an action's purpose: I went out to buy bread. Use for + noun for a purpose or recipient: a bag for groceries; a gift for Lee.

For + -ing often describes a function: a tool for opening bottles. A to-infinitive can also describe a use: something to open bottles with. Do not use for buying to explain why you went out in the basic I went out to buy pattern.
