

Because, because of, and so

Teaching guide

Give a reason and describe its result.

Understand the distinction

Because introduces a reason with a clause: because the bus was late. Because of introduces a noun phrase: because of the delay. So can introduce the result: The bus was late, so I walked.

In a simple standard-English sentence, choose one clear connection rather than because ... so A cause claim needs evidence; events happening together does not prove that one caused the other.

Compare the patterns

BECAUSE

I stayed home because I felt ill.

The reason is a clause.

BECAUSE OF

I stayed home because of a cold.

The reason is a noun phrase.

RESULT

I felt ill, so I stayed home.

So introduces what happened as a result.

Read each example. Explain what the highlighted choice means in context. Then cover the example and say a similar sentence.

Check your understanding

Write before looking at the answers. The guide gives a model answer and explains the choice. Other wording can be correct.

1. We stopped ____ the heavy rain.

2. Join with so: The shop was closed. We came back later.

3. Correct this: Because I was tired, so I went home.

Use it in your own life

Explain a recent decision with because or because of.

Self-check

Does your sentence express your intended meaning? Does its form follow the relevant pattern? Can a reader understand the context?

Try again

After checking the explanation, revise your sentence. Say it aloud or use it in a short conversation.

Answers and explanation

1. because of

The heavy rain is a noun phrase.

2. The shop was closed, so we came back later.

Put the result after so.

3. Because I was tired, I went home.

Alternatively: I was tired, so I went home.

One possible response

I took the bus because my bicycle needed a repair.

This is a model, not the only acceptable answer. Assess meaning, grammar, and context together.

A practical teaching sequence

1. Notice (2 minutes)

Ask learners to explain the differences between the comparison examples before reading the rules. Use their answers to identify the point that needs attention.

2. Explain and check (4 minutes)

Read the short explanation together. Keep its qualifications: a common pattern is not necessarily a rule for every context. Ask learners to give a counterexample where the lesson mentions an exception.

3. Apply (5 minutes)

Explain a recent decision with because or because of.

Have learners work alone, then compare with a partner. Ask the partner to restate the intended meaning before suggesting a correction.

4. Review (3 minutes)

Use the answer explanations to review the three checks. Accept natural alternatives that preserve the intended meaning. Ask each learner to revise one sentence and identify the change.

Extension

Change the person, time, place, or purpose in a comparison example. Ask whether the original pattern still fits and why. Revisit one example in the next lesson.

Feedback criteria

Meaning: the message is understandable. Form: the target pattern fits the context. Transfer: the learner can use it in a fresh example. This short activity is not a proficiency certification.
